

Future of Work w/GenAI Profile

Industry:
Position:
Job Role:
Value Streams:
Team Dynamics:
Key Processes:

Element Prioritize 1 (Preferred) - 4	Communication (How you communicate)	Instruction (How you instruct others)	Learning (How you learn)	Teaming (How you collaborate)	Collaborate (Team collaboration)
V-Visual					
A-Auditory					
R- Reading/Writing					
K-Kinesthetic					
G-GenAI Adoption: None/Low/Moderate/High					

Instructions: Candidates complete the VARK-G Profile to generate a Future of Work with GenAI Strategy

Notes (8):

- Value Streams: Consider the areas where your individual/team work or processes contribute value to the organization: Inbound Logistics, Operations, Outbound Logistics, Marketing & Sales, Service, HR, Technology, and/or Procurement.
- Key Processes: Consider any key processes, customer journeys, methodologies, and/or systems you contribute to.
- Communication: Consider how you prefer to communicate in the workplace to accomplish your core work tasks.
- Instruction: Consider how you best communicate when instructing others in the workplace.
- Learning: Consider how you would prefer others to teach or educate you on new/existing tasks in the workplace.
- Teaming: Consider your individual preferences for collaborating with other individuals in the workplace.
- Collaboration: Consider your preferences when you/your team are interacting with other teams.
- GenAI (Bridging Layer): Consider levels of Generative AI that you leverage (preparing, delivering, or executing) for each pillar.

The Future of Work w/GenAI Profile using the VARK-G Table is a self-assessment created by Carlton L. Robinson, DBA as a form of applied AI training. It is intended to form a leadership lens for human-centered and AI-augmented work. This document is intended for training and education purposes only. © All rights reserved.
