“my heartfelt thanks
go to friends, family,
colleagues and
customers”

New Year Wishes

This is a time of year for quick reflections, before looking forward positively to what lies ahead.

It has been quite a year for many reasons. Setbacks and new opportunities have all featured in 2020, both personally and professionally. Looking back, I am very fortunate to have ended the year so positively.

Again, my heartfelt thanks go to friends, family, colleagues and customers who all reached out to offer words of support during the difficult times. I will never forget such kindness.

My immense gratitude is also extended to my new partners, [PEW Electrical Distributors](#) and [VEGA Lift srl](#), without whom my mini expedition to go solo would not have been possible. I have been welcomed warmly into their teams and have been extended fantastic opportunities for development and growth.

Before bidding 2020 farewell, I wanted to wish you all the most prosperous 2021 possible and to again register my personal thank you to you all.

I hope that we may speak and collaborate again soon.

Best wishes

Neil
