Industrial Energy alongside Engie Resources, has secured Priddy Wind as a renewable energy source for the Historical Society of Pennsylvania, located in Philadelphia, PA. This comes as Industrial Energy continues to build out their renewable energy program for museums throughout the country.

“It is very exciting to be working with an organization like the Historical Society. The amount of history they have archived in there is amazing. We are very happy to be able to provide them with an easy to access, site specific renewable product, which will greatly assist in their green initiatives.” said Christian Amabile from Industrial Energy.

*“The Historical Society of Pennsylvania, founded in 1824, is one of the nation’s largest archives of historical documents. We are proud to serve as Philadelphia’s Library of American History, with over 21 million manuscripts, books, and graphic images encompassing centuries of US history. HSP serves more than 4,000 on-site researchers annually and millions more around the globe who use its online resources. HSP is also a leading center for the documentation and study of ethnic communities and immigrant experiences in the 20th century, and one of the largest family history libraries in the country. Through educator workshops, research opportunities, public programs and lectures throughout the year, we strive to make history relevant and exhilarating to all.”*

*Industrial Energy is one of the longest tenured energy advisors in the industry. We represent supply of energy for businesses, via strategic partnerships, which have afforded us access to proprietary solutions and contractual arrangements for our clients.*

*Our company leadership has over 35 years of experience in providing supply, strategy, and full coverage, and we function in the form of on-staff energy advisors, to best assist our customers and end users.*

*Our group has also led in the area of renewable energy supply, with site-specific PPAs and VPPAs. (Power Purchasing Agreements and Virtual Power Purchasing Agreements). Industrial Energy has renewable supply availability across the country.*
