GILBERTSVILLE FIRE 67 RESCUE
Douglas Township

Gilbertsville Fire and Rescue has planned a capital improvement project to complete the second floor of our fire station. The second floor which encompasses 3,000 square feet will include a classroom, additional office space, storage and a museum to display our history and our very first horse drawn pumper. Help us reach our goal of raising \$200,000.00 to complete this capital improvement project.
