

Stump Grinding Disclaimer

- Stump grinding is scheduled after the tree work is performed due to our tree crews and stump crews being separate divisions.
- The operator will be completing the agreed upon work described in the quote. Any changes requested by the client to quantities, specifications, or other aspects of the services not described in the quote will incur additional charges (i.e., requesting a depth change, requesting surface roots to be grounded, etc.). Any changes will require a signature prior to work commencing or continuing.
- It is the homeowner's responsibility to move existing rocks and mulch back at least 3ft from stump(s) in all directions to prevent damage from flying rocks/mulch. Trusty Tree Services is not responsible for cost incurred from damages caused by missed rock(s)/mulch or for damage to underground/hidden structures such as irrigation lines.
- It is the homeowner's responsibility to call for line locates prior to grinding operations.
- A 3-foot-wide gate opening and 3-foot-wide path to stump is required. It is the homeowner's responsibility to remove any gates or fencing prior to the service.
