

SERVICE:

A **vision exam** is recommended every 1-2 years. This exam will screen for eye diseases and provide measurements for eyewear and/or contacts.

Reasons for a Vision Exam:

- Blurry vision
- Trouble reading up-close
- Squinting

Diagnosis Reasons for Vision Exam:

- Routine eye wellness
- Myopia (nearsighted)
- Hyperopia (farsighted)
- Presbyopia (bifocal age)
- Astigmatism

INSURANCE:

A **vision exam** is covered by vision care plans. If abnormal findings are discovered during your routine eye exam, you will be asked to return for additional testing and evaluation.

OUT-OF-POCKET:

- Vision plan co-pay
- Contact lens fit fee (may be filed to your vision plan depending on the policy)
- Possible follow-up visits when medically necessary

SERVICE:

A **medical exam** is performed to evaluate abnormal findings and monitor existing medical conditions.

Reasons for a Medical Exam:

Any disease or abnormality that could result in a decline of vision that is not prescription related.

Diagnosis Reasons for a Medical Exam:

- Cataracts
- Diabetes
- Glaucoma
- Dry eye
- Iritis
- Macular Degeneration
- Strabismus
- Eye infections
- Eyelid disorders
- Eye injuries

INSURANCE:

A **medical exam** will be billed to your medical insurance.

OUT-OF-POCKET:

- Medical insurance co-pay
- Co-insurance and insurance deductibles
- Refraction fee
- Contact lens fit fee (if applicable)
