CATA 20 LOGUE 23

INDUSTRIAL

Everything you need in one place

SERVICES

Assembly, Maintenance and commissioning of equipment such as high and low pressure boilers, precipitators, turbines among other equipment

Manufacture of tanks, pipe lines, spare parts, screws for presses, among others.

Consulting and advice for mechanical and electrical assemblies for all types of food industry

Engineering and assembly supervision

Supply of industrial personal protection elements

Supply of equipment and spare parts for the palm oil extraction process and food plants

Manufacture of metal products

Supply of spare parts and abrasives

Rental of manlift, telehandler, crane truck and containers

International and local representation

Importers of machinery and spare parts

Precipitators Electrostatic

High boilers and low pressure

Assembly and commissioning of equipment and structures

Lifting equipment and elevation
