

All health sciences academic institutions need education resources covering all aspects of health and wellness, including mental health, nutrition, physical/occupational therapy, pre-hospital, and pre-hospital. All resources should have current information. No medical publications, such as journals.

Step-by-step shipping instructions and important information are available on the GML website. Simply click the “*Shipping Instructions*” button.

### ***Current Health Sciences Recipient***

#### **Burundi**

**Defense Attaché Office Bujumbura**

**ATTN: GML**

**2100 Bujumbura Place**

**Washington DC 20521-2100**

The Defense Attaché Office (DAO) at the US Embassy Bujumbura works with the Burundian National Defense Force (BNDF). The BNDF units are requesting medical related books/studies (military hospital continued education) and professional development or military studies focused books (Senior Command and Staff College), as well as any books from basic English comprehension level to advance military or regional affairs literature would assist. English comprehension levels within the BNDF vary greatly from basic verbal and reading skills to advance English with PhDs. A wide range of literature support would be welcomed and put to good use with our US Embassy’s BNDF colleagues.

### ***Colleges of Veterinary Medicine Recipients***

#### **Ghana, Kenya, Uganda, Tanzania, and Ethiopia**

**Hans Goertz**

**University of Tennessee Institute of Agriculture (UTIA)**

**McCord 101C, 2640 Morgan Cir Drive, Knoxville, TN 37996**

The University of Tennessee (UT) has been selected to host a cohort of 10 African veterinary professors by the U.S. Department of Agriculture’s Faculty Exchange Program. This program is designed to assist developing countries to improve their agricultural education, research, and extension programs through exchanges with U.S. universities.

***Continue to page 2***

The cohort of African veterinary professors will spend the fall 2021 semester under the guidance of a faculty mentor at the UT Knoxville campus. They will participate in coursework, research activities, and field visits during the exchange.

The UT College of Veterinary Medicine is requesting veterinary textbooks and references to send with these professors when they return to their home institutions in Ghana, Kenya, Uganda, Tanzania, and Ethiopia. The Faculty Exchange Program will pay for additional checked luggage for the participants return travel.
