SEC GUO ™
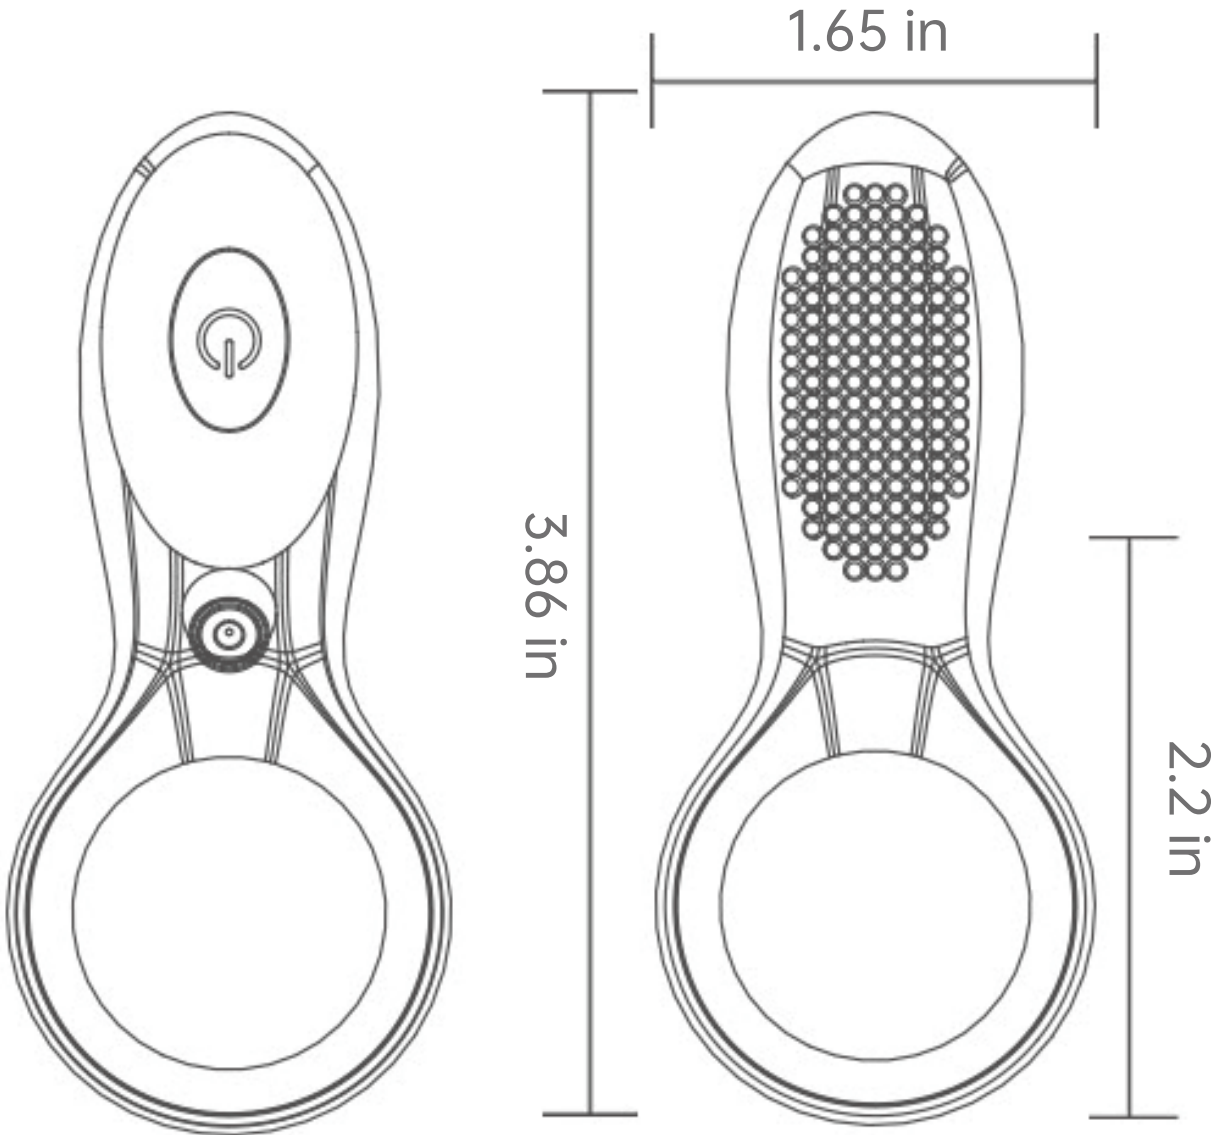

Cock King
Rechargeable Silicone Vibrating Ring

Instruction

We know you are eager to start playing with your new SecGuo toy, but please take a moment to read through our user manual before your first time.

1.65 in

3.86 in

2.2 in

Getting Started

•Make sure your penis is semi-erect to fully erect.

•Apply a water-based lubricant around the base of the penis. This will prevent the cock ring from sticking to your skin, catch on hair, or pinch any sensitive spot.

•Stretch the cock ring open and put it around the penis shaft, sliding the ring against the body to tighten any loose skin.

•If wearing a cock ring around the shaft and scrotum, stretch the ring out larger and place it around both at the same time.

•Press and hold the power button for 3 seconds to turn on.

•Continue pressing to cycle through 2 speeds and 8 powerful patterns to find your favorite function.

•Place the vibrating cock ring in contact with your partner's clitoris or wherever you like.

•Enjoy!

Charging

•Charge your Cock King before first use.

•Only use original chargers provided by SecGuo.

•Before every charge, make sure the DC socket is free from water or lubricant residue.

•Gently insert the DC pin into the socket on the toy. You should hear and feel a subtle click.

•Insert the USB end into any USB port.

•The LED will pulse to indicate Cock King is charging. The LED will stay on when fully charged.

Cleaning, Storage, Safety

•Always clean your cock ring thoroughly before and after each use.

•Wash using warm water and antibacterial soap, rinse, and pat dry with a lint-free cloth or towel.

•Never use cleansers containing alcohol or acetone.

•Avoid leaving in direct sunlight and do not expose to extreme heat.

•Store in a cool, dry, dust-free place, out of reach of children and pets.

•Do NOT use with silicone-based lube.

Specifications

•Material: Medical Grade Silicone + ABS

•Size: 3.86" x 1.65" x 2.20" (show product diagram)

•Battery: Li-Ion 150 mAh 3.7V

•Charging: 30 minutes at 5.0V 500 mA

•User Time: up to 90 minutes

•Max Noise Level: < 50dB
