

Raw Edge Rose Block

This is the rose block for Fall 2024 retreat.

The background needs to be white tone on tone 10 1/4" to 10 1/2" square.

The photo is one I copied from Pinterest. There are several images to look at.

Place the large petal on first, **place the leaves under the large petal** sew 1/4" to 3/8" from the edge, being sure to catch the leaves. Follow with the med, and small petals sewing just like you did with the large petal.

Use colors that you would find on roses in nature. Try to have a little contrast between the petals. Have fun!!!
