

## **Board Candidate Bios**

### **Catherine Grant**

As a veteran, I understand rules can be beneficial. Covenants, Conditions, and Restrictions are in place for the safety of the residents and to protect the property values in our neighborhood. Working in collections has taught me patience and to listen to the details of an issue from the perspective of an individual in a tough situation. I learned to meet my goals while helping the individual meet theirs. Working through problems to bring a positive solution for all involved. I love the idea of participating in the processes related to HOA Board responsibilities. Using my skills as a Contract Developer may also help the Board and the residents. I have lived in the community for 20 years and have wanted to work with the HOA and community for quite some time. I hope to have an opportunity to implement some of the things I have learned and encountered over the years.

### **Jeff Young**

My wife and I have lived in League City for over 25 years and have been in The Lakes of South Shore Harbour for 19 years. I believe I can help our Board with maintaining and improving our community. I have over 25 years of project management experience in oil and gas and while working for a NASA contractor after graduating in Biomedical Engineering. I would like to help the Board implement their current goals as well as understanding what the highest priority is from our community.
