

The Bruno Project

Adoption Agreement for Overseas and Canadian Homes

Printed Name: _____ Pet Import Name: _____

Full Address: _____

Email: _____ Telephone Number: _____

This agreement must be completed prior to delivery of your pet and e-mailed to stluciaanimals@hotmail.com. Payment of adoption fee must be sent via e-transfer to brunoprojectstlucia@gmail.com. Password for the transfer can be delayed until you are satisfied that your pet has been delivered to you or is in transit. If either of these steps do not occur before deliver, the animal will not be released to you.

I, _____, agree that I am adopting the above-named pet by me solely as a pet for myself and/or my immediate family. I will treat it kindly and provide proper food, water and adequate shelter at all times. I will keep my pet safely in my property without chaining it for extended periods of time.

Any veterinarian medical bills, including medications, testing, or vaccines after adoption has been completed (adoption fee exchanged for possession of the pet) is at my cost and I will not seek any form of reimbursement from THE BRUNO PROJECT or any of their sister cooperative or affiliated organisations in St Lucia or abroad. I understand that THE BRUNO PROJECT has had the pet examined by two licenced Veterinarians on export and the pet has been found to be healthy. THE BRUNO PROJECT makes no health guarantees or warrantees on my pets health. It is wise to discuss symptoms present due to illness with THE BRUNO PROJECT or within the support group prior to a veterinarian visit as it could be something common amongst dogs of that age or within the St Lucian dog population.

I am aware that THE BRUNO PROJECT normally screens all dogs over six months of age for diseases such as Ehrlichiosis, Anaplasmosis, Lime Disease and Heartworm using the IDEXX SNAP 4 DX Plus test prior to export or a Complete Blood Count (counting platelets and hemoglobin levels). I acknowledge that, according to documentation provided to me, my pet was tested on _____ and the test did not show any sign of these illnesses. My pet has since been administered heartworm prophylactics and treatment for worms, ticks and flees. THE BRUNO PROJECT strongly recommends that I continue to administer such medications on an on-going basis and as recommended by my pet's veterinarian. Knowing that THE BRUNO PROJECT' volunteers and representatives exercised due diligence by testing my pet, I absolve them from any liability for future damages or expenses due to these illnesses.

If applicable: I acknowledge that my pet was diagnosed with _____ prior to export, has been administered initial treatment commencing on _____ and that testing or further treatment may be required again in the future. I will not seek compensation of any sort, including but not limited to, any

veterinarian care or medication associated with this sickness or any other sickness, disease or mortality in any way associated with it.

I understand that there will be an adjustment period and my pet may show signs of intestinal/bowel and other slight health issues due to change in climate, the travel, changes in diet, and a new home.

I understand that THE BRUNO PROJECT makes no representations or guaranties about my pet's temperament or behavior, and I hereby absolve THE BRUNO PROJECT from any liability for damages or injuries caused by my new pet. I also understand that THE BRUNO PROJECT gives no guarantees of the suitability of my pet for me or family. If I encounter an issue, I will seek professional advice, contact THE BRUNO PROJECT for their opinion, or seek guidance through our support group.

I understand that THE BRUNO PROJECT will not make representation about my pet's breed nor will they guarantee the presence or absence of any specific breed in my pet.

I understand that it may be best for my pet to be on free feeding to avoid him/her hiding or wanting to fight for food. I have been told that my dog was likely living with many other dogs while in St Lucia, and could have felt the need to fight for food.

Within two months of this document's date, or before my pet reaches the age of six months, I will have my new pet spayed or neutered if that has not already been done.

If at any time, for any reason, I decide not to keep my pet, I agree to return it to THE BRUNO PROJECT provided foster home placement is available, find it a new home, or surrender it to a no-kill shelter. This would be done at my own expense. No part of the adoption fee will be reimbursed.

PLEASE EMAIL THE BRUNO PROJECT IF YOU HAVE ANY DIFFICULTIES, QUESTIONS, ETC AT
stluciaanimals@hotmail.com
