

## BRING MAX HOME

On December 2, 2020, around noon we stopped at the Mamaloose Rest Stop on Highway 84 in Oregon. This rest stop is located near the town of Rowena in the Columbia River Gorge. Once we opened the door Max bolted out which he has not done before. Within a split second he was hit by an incoming big rig, bounced off and took off running not responding to our commands. We lost him in the area and a short time later he must have doubled back up on the road only to be hit by a car. The driver stated he bounced off her car and ran off back into the brush area towards the river. We feel exceptionally blessed that no one crashed or was hurt other than Max. We searched the area with help from an OSP Trooper but eventually gave up due to darkness. We have returned to the area and searched but have yet to find Max. If you know this area it is huge. We are asking for anyone in that area if you see Max to please call us. He is chipped.
