

Board Election Results and Community Event Updates

Well... The Association Lake Board Election ballots have been opened and the votes have been counted. The number of votes cast was well above our historical norms.

Please join me in welcoming Neil Howell and David Richter to the Board of Directors for 2026-2027!

Thank you again to “retiring” Directors, Ray Braun and Nate Lehner, for their years of service.

The (new and old) BOD Members will meet once more before the Spring Membership Meeting on May 23rd, to elect Board Officers for the coming year.

Per our most recent Covenant and By-Law changes, elected Board Members are limited to serving three terms (or 10 years.) Appointed Committee Members and Event Chairpersons can serve for any number of years.

For those who are curious, the three-year term for Lake Board positions for myself and Deb Hoffman will be open for re-election next spring.

I encourage everyone to consider playing an active role in our community!

The SSL POA Community Events Committee met on April 13th and has provided the following important update information. Please read this carefully and consider joining in to make sure that each of these events is a great success!
