

## Low-Cost Labs & Screenings

Don't Skip medical care because it's too expensive. The Havasu Community Health Foundation's Low-Cost Labs & Screenings program is intended to help members of our community who would find the Labs/Screenings difficult to access due to no insurance, high deductibles, or because the service is not covered through their health insurance.

Patients must register at the HAVASU COMMUNITY HEALTH FOUNDATION, 2126 McCulloch Blvd. Suite #14 and pay any applicable fees before arranging for services. Labs & Screenings are performed at Havasu Regional Medical Center.

What you don't know Can hurt you!

### Low-Cost Lab Services available through Havasu Community Health Foundation:

- Aerobic ----- Bacterial Culture
- BMP ----- Show how well your kidneys are working
- C Diff ----- Check for infection
- C Reactive ----- Check for inflammation
