

## Competitive Pricing and Offer

We understand the importance of keeping costs low while maintaining high service standards. We are pleased to offer competitive pricing per tire and/or trailer switch-out service if needed in the future for high-volume stores. Our efficient processes allow us to provide top-tier service at a price that aligns with your budgetary requirements. If you would like us to start with all your stores or even a handful of stores, we will gladly honor this pricing through the potential transition to demonstrate our level of customer service, pick-up schedule, and communication to your stores, with the hopes of gaining all your business.

Thank you for giving us the opportunity to present how NexGen Tire Recycling LLC, in partnership with our sister company, Willig Tire Recycling, can support your business with their scrap tire recycling needs. I'd like to provide an overview of our company, our services, and the exceptional value we can bring to your organization.

## About

### NexGen Tire Recycling LLC:

With over 40 years of experience in the recycling industry, NexGen Tire Recycling LLC and Willig Tire Recycling are leaders in waste tire management and recycling and 2nd in volume in the State of Ohio. Our state-of-the-art facilities that we transport all tires to are designed to convert scrap tires into Tire-Derived Fuel (TDF), rubber mulch, and crumb rubber, ensuring a zero-waste approach that aligns with both environmental sustainability and cost-effectiveness.

## Our Commitment to Customer Services

At NexGen Tire Recycling, we believe that exceptional customer service is the foundation of a successful partnership. We are committed to providing all our customers with a reliable, responsive, and seamless tire recycling experience:

### » Timely and Efficient Pickups:

We understand that timely scrap tire pickups are critical to your operations. Our logistics team is dedicated to ensuring quick and efficient service, with a strong focus on minimizing any disruptions to your workflow. Furthermore, any hand pick-up services can be put on a route for each store's varying level of needs, whether that's 2 times per week, once a week, or a different volume pickup schedule—we have the employees, trucks, and semi-trailers to handle all your volume. We understand tire buildup at the store level decreases production, looks unsightly, and decreases employee morale with a cluttered yard and workspace—our goal is to never let this happen.

### » Dedicated Support:

Our professional team is trained to handle all aspects of your recycling needs with precision and care. From the moment you contact us to the final disposal of scrap tires, we strive to exceed your expectations in service pickup and delivery. We are highly insured and are a state-licensed scrap transporter and scrap processing facility, with all that documentation attached here.

### » Ready to Start Immediately:

Our team is prepared to begin servicing your business immediately, ensuring a smooth transition and immediate attention to your recycling needs. With our robust infrastructure and experienced personnel, we are fully equipped to handle the scale of your operations without delay.

### » Partnering with NexGen Tire Recycling LLC:

By choosing NexGen Tire Recycling LLC, your business will benefit from a partner who is committed to delivering timely, cost-effective, and high-quality recycling services. Our zero-waste initiative and innovative processing methods ensure that your scrap tires are handled in the most sustainable and efficient way possible without any delay or hold-up at your stores and handled by our licensed and insured Company.

### » Responsive Communication:

We prioritize clear and prompt communication with all our clients. Our team is available to answer store calls and respond to inquiries immediately, and if unable to answer immediately, we will respond within one hour, ensuring they always have the support they need.
