## L4 IQA

WAS	OFFER
<del>£450</del>	£395

ASK ABOUT OUR  
CPD QUALIFICATIONS

Everyday Lessons provides Ofqual-regulated education, working with a range of companies across different settings as well as independent professionals. We are dedicated to enhancing and developing staff through various support methods, including in-house standardisation meetings, CPD qualifications, and one-to-one consultancy. Our consultancy services are available both online and in your work setting.

With extensive experience in OFSTED inspections, education settings, safeguarding, and awarding body EQA visits, our team is well-equipped to support your training and compliance needs. We are Ofqual-regulated through ICQ to offer teaching qualifications, as outlined in our course offerings. Additionally, we are CPD accredited with IPHM—please contact us for more details on our CPD courses.

Beyond qualifications, we also provide support in key areas such as quality and compliance, creating and developing resources, and conducting OTLA (Observation of Teaching, Learning, and Assessment) with actionable feedback to drive continuous improvement. Additionally, we assist in developing policies and procedures, as well as creating essential paperwork such as assessment plans, tracking sheets, and other documentation to support effective teaching and learning practices.
