Testimony Tidbit

"It happened twice. The first was at Messiah West Coast in 2015. On the last night of starlight worship, I felt the urge to make my faith my own, so I prayed with Brandon Darby and did just that. In the years that followed, I was baptized a couple times, but it never kept very well. My determination kept faltering. It was only at Messiah Texas 2020 where my constitution was tested by fire through demonic attacks, and strengthened through witness of miraculous physical healing. Ever since then, I make a conscious effort everyday to stay purple."
