

ORDERING GUIDE

November 2026

SEWP OVERVIEW

NASA SEWP VI (Solutions for Enterprise-Wide Procurement) is a Government-Wide Acquisition Contract (GWAC) that gives all Federal agencies and their approved contractors access to current Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services. It features a \$20B ceiling per prime contract and a 10-year ordering period. The GWAC core purpose is to streamline procurement of commercial IT, communications, audiovisual (ITC/AV) products, cloud, cybersecurity, and related professional services. The GWAC is divided into three segments: *Category A*, *Category B*, and *Category C*.

These Government-Wide Acquisition Contracts are available for ordering by all NASA centers, all federal agencies and their contractors. NASA's Goddard Space Flight Center, Greenbelt, Maryland procures and manages the SEWP V effort.

The SEWP Program is self-funded through a usage fee and provides acquisition support to all Federal agencies.

NASA SEWP CONTRACT FEE IS 0.34%

Category B Contract	80TECH26D1804 – Enterprise-wide IT Services (ITC/AV)
Category C Contract	80TECH26D1768 - Professional Services
Ordering Period	November 1, 2026 – October 31, 2036 (10-years)

Business Status	SBA 8(a) Certified Tribal Owned HUBZone Small Business Mentor-Protégé Joint Venture
Certifications	Cleared Work Eligible CMMC Level 2 Certified ISO9001 CMMI SVC ML3 Appraised C-SCRM Certified ISBEE IEE

1. ABOUT AKIAK NS, LLC

NikSoft Systems Corporation serves as the Mentor to Akiak Technology, LLC, in the formed venture called Akiak NS, LLC, an SBA 8(a) Certified Tribal-Owned HUBZone Mentor-Protege Joint Venture small business. The JV aims to combine Niksoft's expertise in full lifecycle custom software engineering and Akiak Technology's experience in applied AI and machine learning solutions in federal environments. Together, these capabilities provide a more holistic, effective model for managing IT and realizing digital transformation at speed.

2. Program Management & Support Contacts

Primary points of contact for quotes, ordering support, troubleshooting, and post-delivery issues:

Role	Name	Email	Phone
Program Manager	Kevin Hamer	KHamer@AkiakTechnology.com	703.407.0725
Deputy Program Manager	Sheila Brooks	SBrooks@AkiakTechnology.com	202.313.8357

Order status or delivery issues: SEWPSupport@AkiakES.com

Please include the order number and SEWP tracking number, if available, with a brief description of the issue.

3. Contract Information

Akiak NS holds awards under both Category B and Category C of SEWP VI:

CATEGORY B Enterprise-Wide Service Solutions 80TECH26D1804	CATEGORY C IT Mission-Based Services (Small Business Only) 80TECH26D1768
Focused on enterprise-level IT, communications, and audiovisual infrastructure support services (open to all sizes). • Cloud migration, optimization, and Cloud Financial Operations (FinOps) • Enterprise architecture modernization • Managed and shared services planning and governance • IT investment management and cost transparency • Cybersecurity and Zero Trust Architecture	Focused on IT professional services, including custom programming, network operations, cybersecurity, and related technology services. • Custom computer programming and software development • Telecommunication services, including network operations and IT/AV engineering and design • Data processing, analysis, and hosting services • IT consulting, educational services, and digital government services • Cybersecurity and security systems services

4. How to order

SEWP VI is a request-based vehicle. There is no static catalog. Customers use NASA's online tools to issue requests and obtain quotes.

Step-by-Step Process

1) Define Requirement & Conduct Market Research

Determine your requirement and perform appropriate market research (FAR Part 10). NASA SEWP tools assist with this process.

2) Request Quotes via the SEWP Quote Request Tool (QRT)

Log into the SEWP website and create an RFQ, Market Research Request (MRR), or RFI. Selecting Akiak NS (or the appropriate Category) ensures we receive the opportunity. Use of the QRT helps document Fair Opportunity (FAR 16.505(b)).

3) Evaluate Quotes & Select Best Value

Review responses and make a best-value determination. Document the rationale as required by your agency.

4) Issue Delivery / Task Order

Create the order on your agency's form. Cite the applicable Akiak NS SEWP VI contract number and Akiak NS as the Contract Holder.

5) Submit Order to the NASA SEWP Program Management Office (PMO)

All Delivery Orders and modifications must be routed through the NASA SEWP PMO. Do not send the order directly to Akiak NS for formal acceptance.

6) SEWP PMO Processes & Forwards Order

The PMO verifies the order, assigns a tracking number, and forwards it to Akiak NS for fulfillment.

7) Akiak NS Invoices

Akiak NS executes the work/delivers the solution and invoices the ordering agency

5. Submitting Orders to the NASA SEWP PMO

Send Delivery Orders (PDF or image files) to the NASA SEWP Program Management Office:

Email (Preferred): sewporders@sewp.nasa.gov

Fax: (301) 286-0317

Helpline: (301) 286-1478 | help@sewp.nasa.gov

Hours: Monday – Friday, approximately 7:30 a.m. – 6:00 p.m. ET

Akiak NS may only accept and begin work on orders that have been processed by the SEWP PMO and assigned a tracking number.

6. Required Information on Delivery Orders

To avoid delays, every Delivery Order should include the following:

- Delivery Order Number (any valid Government DO is acceptable)
- Quote from Akiak NS verifying viability of the order
- Date Delivery Order Issued

- Applicable SEWP VI Contract Numbers: **80TECH26D1804** (Category B) and **80TECH26D1768** (Category C)
- Akiak NS, LLC name, mailing address, and phone number
- Issuing Office: Agency Name and Mailing Address
- Ship-to / Performance Location: Agency Name and Address
- Total dollar amount of the order
- Contracting Officer's signature, phone number, and date signed
- Line-item descriptions and pricing
- For orders exceeding \$5 million: Fair Opportunity documentation (or equivalent)

7. Fair Opportunity

FAR 16.505(b) requires that each contractor be given a fair opportunity to be considered for orders exceeding the micro-purchase threshold issued under multiple-award contracts. Use of the NASA SEWP Quote Request Tool is the recommended method to satisfy and document Fair Opportunity. Exceptions to Fair Opportunity are limited and must be properly justified and documented by the ordering Contracting Officer.

8. Support, Troubleshooting & Post-Delivery

For questions about quotes, order status, technical support, warranty, installation, or any post-delivery issues, contact the Program Manager or Deputy Program Manager listed in Section 2, or email sewpvi@cinteot.com. They serve as the primary points of contact for all SEWP VI support matters and will route inquiries to the appropriate internal resources.

If you experience a problem with an order (delivery delay, incorrect item, invoicing question, etc.), please reach out as soon as possible with the SEWP Tracking Number / Delivery Order number so we can resolve the issue quickly.

9. Additional Notes

- Authorized Users: NASA, all Federal agencies, and approved Federal agency support-service contractors.
- Economy Act: Delivery orders against SEWP are not subject to the Economy Act (SEWP is a designated GWAC).
- Contract Types: SEWP VI supports Firm-Fixed-Price, Time-and-Materials, Labor-Hour, and other authorized commercial contract types at the order level.
- Administrative Fee: An Agency Administrative Handling Fee (not to exceed 0.34%) applies and is included in quoted prices (not shown as a separate line).
- Updates: This guide will be revised within 10 business days of any relevant contract modification.

10. Official NASA SEWP RESOURCES

- SEWP Website: www.sewp.nasa.gov
- Quote Request Tool & Catalog access available after login
- SEWP Helpline: (301) 286-1478 | help@sewp.nasa.gov
- Orders: sewporders@sewp.nasa.gov | Fax (301) 286-0317

Questions?

Send email to SEWPSupport@AkiakES.com. We look forward to supporting your mission requirements.
