

The image features a dark, charcoal-colored background with a subtle, intricate white wood grain pattern. The pattern consists of concentric, wavy lines that create a sense of depth and texture, reminiscent of natural wood grain. In the center of the image, the word "RIVA" is written in a large, white, serif font. Below it, the word "SPAIN" is written in a smaller, white, sans-serif font, with wide letter spacing. The overall aesthetic is clean, modern, and sophisticated.

WOOD MASTERS SINCE 1937

Our roots date from **1937** in Vigo, Spain, where the Iglesias family started in the wood world with a small workshop. More than **eight decades later**, that same workshop has become one of the most respected wood manufacturers across Europe.

At **RIVA**, wood is in our DNA. Every stage of the production process is rigorously designed to deliver the finest product.

Our CEO, **Borja Iglesias**, belongs to this **fourth generation of wood masters**. Following his passion, Borja founded **RIVA** in **2018** in the United States with the clear mission of creating **high-end flooring solutions** and delivering peerless **design** and **quality** to his clientele.

Our goal is to revolutionize the flooring industry, providing our customers with a **luxury experience** driven by state-of-the-art solutions and continuous **innovations**.

R WOOD

Our wood collections reflect more than eighty years of passion for beauty and elegance. Every collection is thoroughly designed to guarantee a durable and high-quality product.

COLORS

COOL TONES

🌱 Ideal for turning down the noise in bedrooms, nurseries, and vacation homes, or turning up the creative flow in home offices or yoga/meditation rooms. Stay monochromatic or use the cools as a canvas upon which to make warmer accents pop.

NATURAL TONES

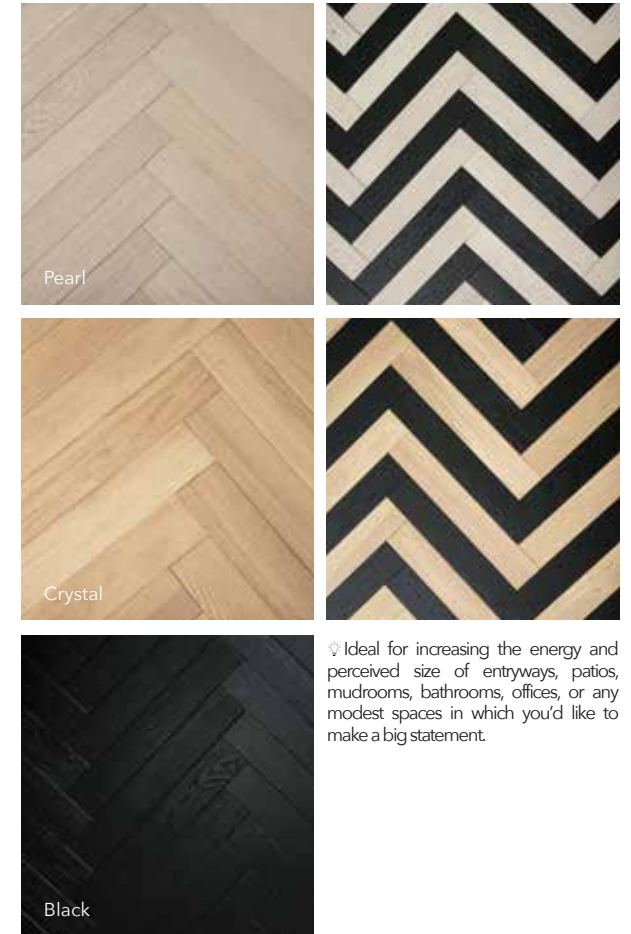

🌱 Ideal for dining rooms, dens, game rooms, or any space in which you would like modern elegance grounded in timeless strength and durability.

WARM TONES

🌱 Ideal for living rooms, kitchens, winter homes, or any room where people gather to live, love, and revel in what truly matters.

HERRINGBONE

🌱 Ideal for increasing the energy and perceived size of entryways, patios, mudrooms, bathrooms, offices, or any modest spaces in which you'd like to make a big statement.

GRADES

Character

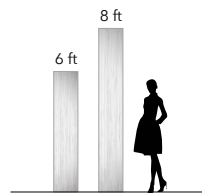

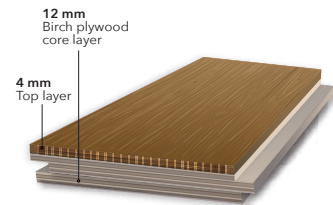

We refer to our character grade as "light character". There are minimal splits/cracks as well as fewer knots than the industry norm. The fill we use is stained to blend into the flooring and does not stand out.

Select

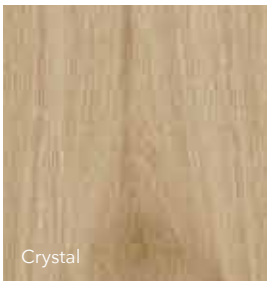

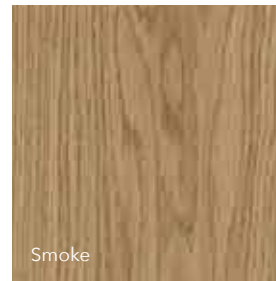

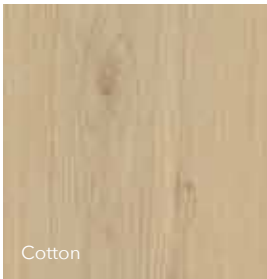

Our select grade presents a sleek appearance. The use of premium wood results in the absence of knots, providing a luxury feeling.

RIVA METRO

6 3/4"

Width	6 3/4"
Thickness	5/8"
Top layer	4 mm
Length	6 - 8'
Grade	Character
Species	European oak
Construction	Engineered
Finish	Bona® UV Matt Lacquer

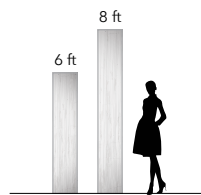

Contemporary
RIVA Metro fits in with the ever-changing, quick, and modern style of big cities. Make an impression with the uniqueness of character wood floors and create a contemporary feel in any room. This width is excellent to make small spaces appear larger thanks to the number of narrow boards on the floor.

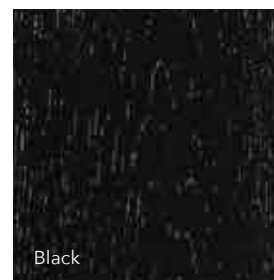

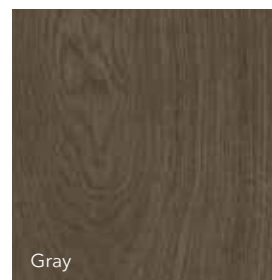

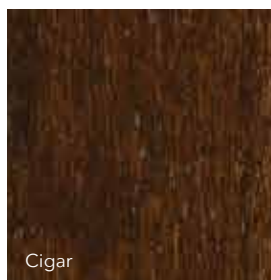

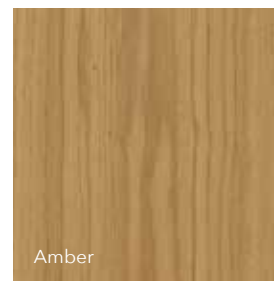

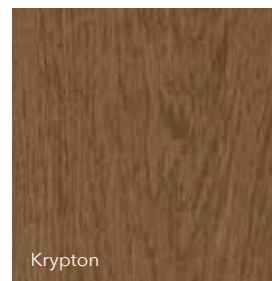

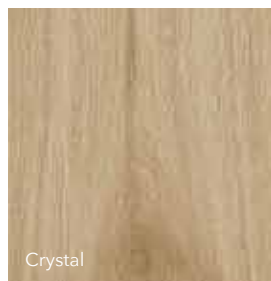

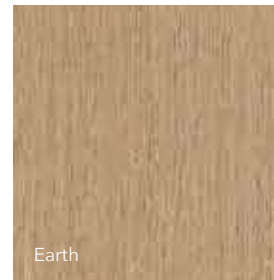

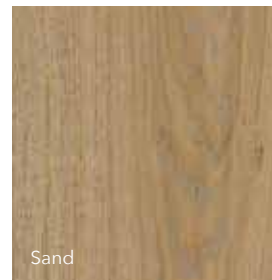

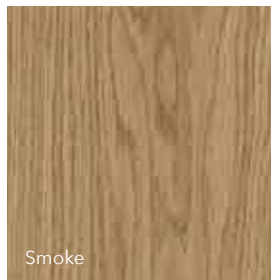

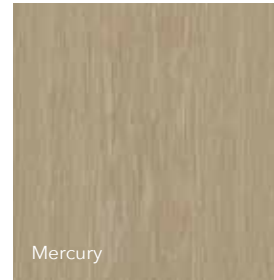

Color: Crystal / Collection: RIVA Metro / Project: Mobile Studio Design / Interior designer: Mobile Studio Design / Photo credits: Rachel Sieben.

RIVA ELITE 8"

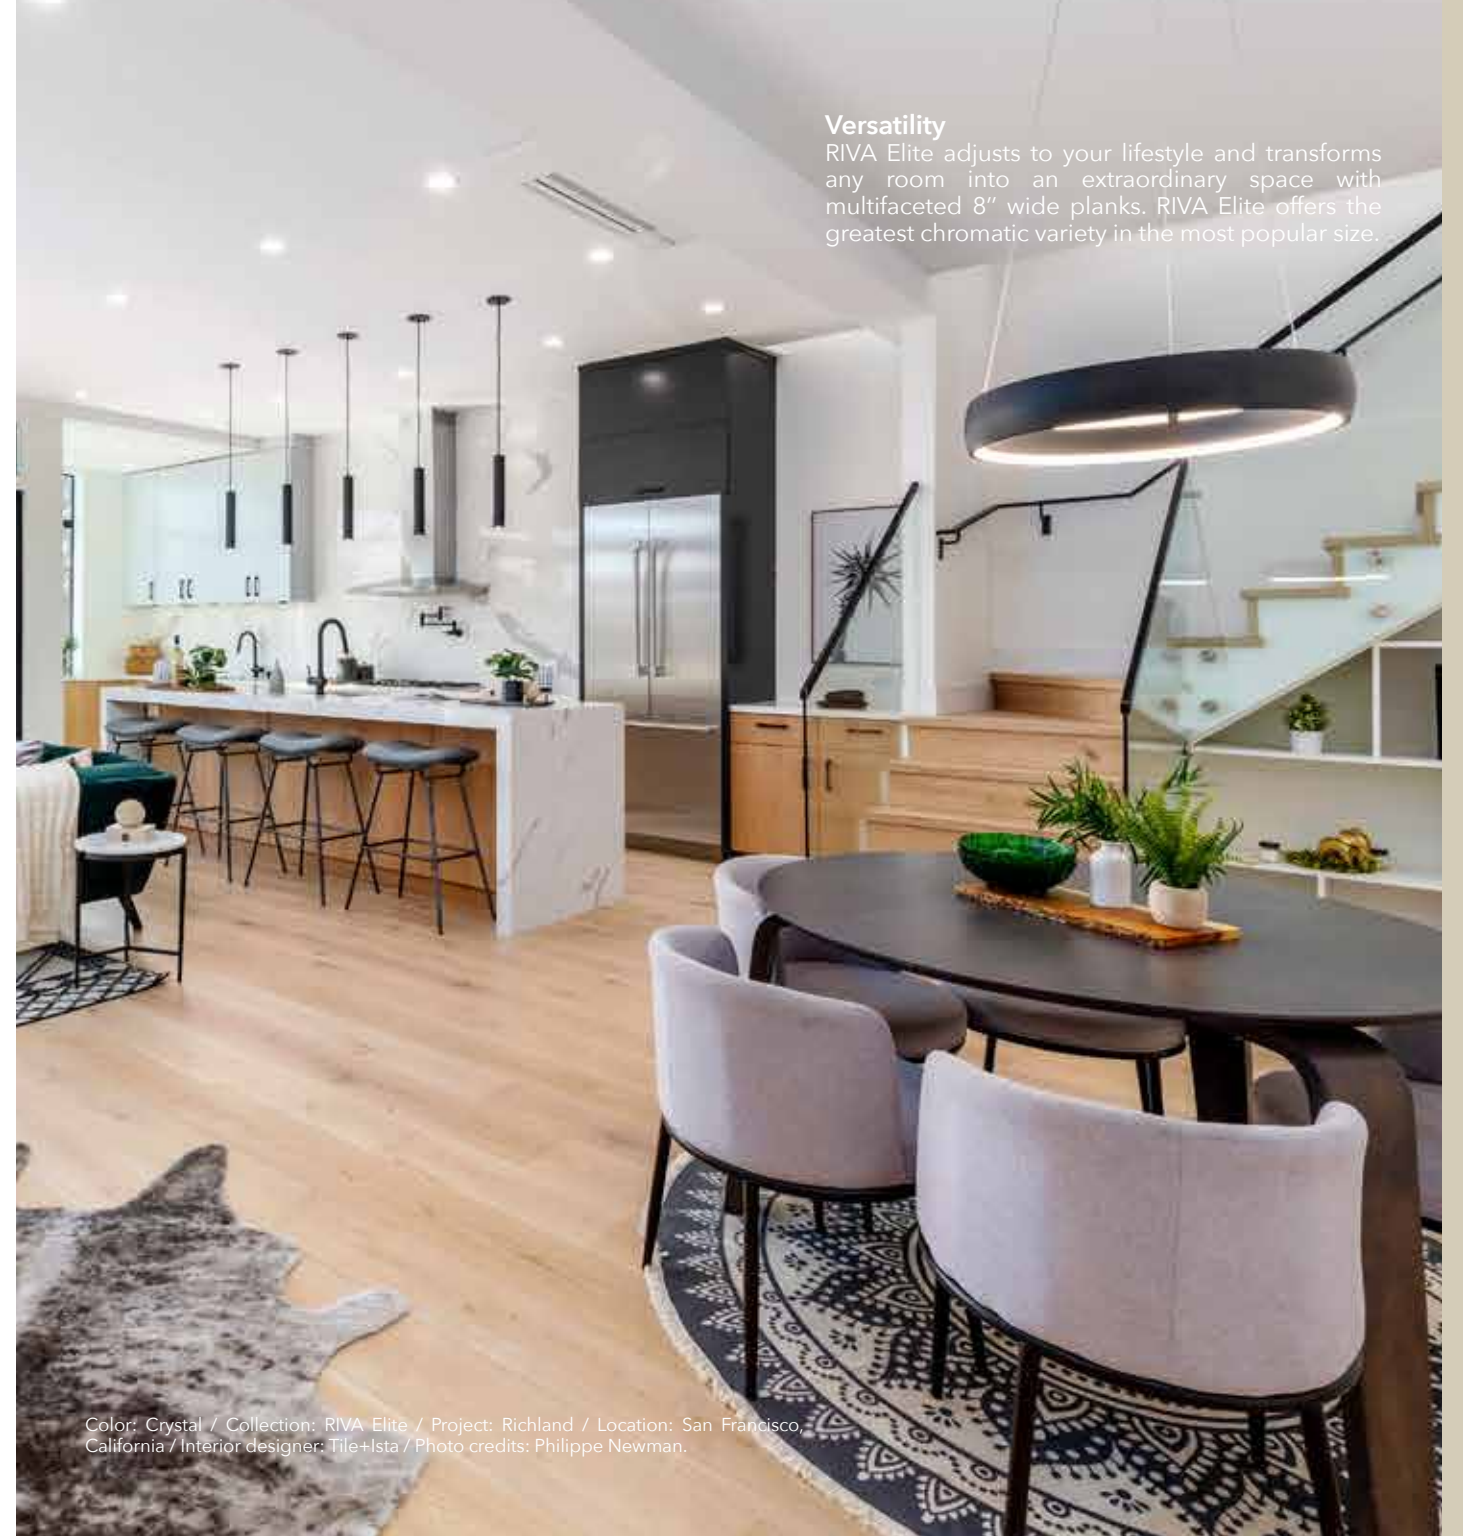

Width	8"
Thickness	5/8"
Top layer	4 mm
Length	6 - 8'
Grade	Character Select
Species	European oak
Construction	Engineered
Finish	Bona® UV Matt Lacquer

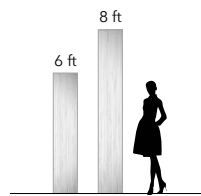

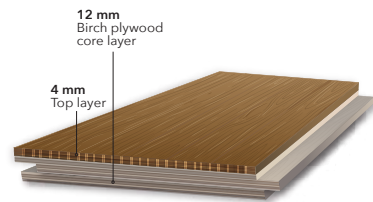

Versatility

RIVA Elite adjusts to your lifestyle and transforms any room into an extraordinary space with multifaceted 8" wide planks. RIVA Elite offers the greatest chromatic variety in the most popular size.

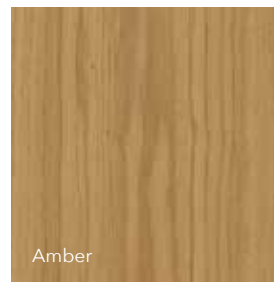

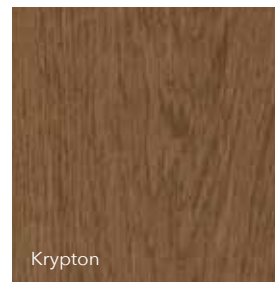

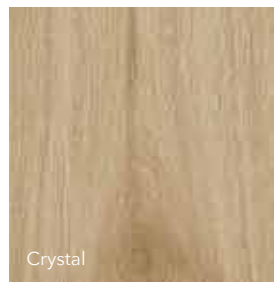

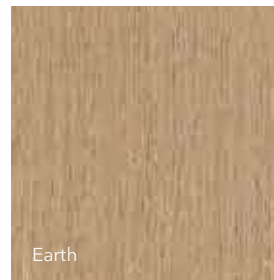

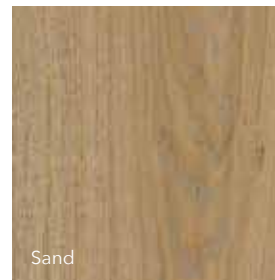

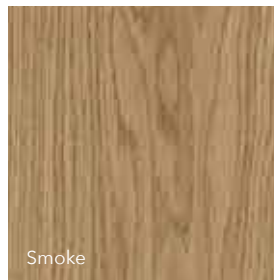

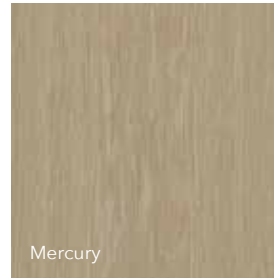

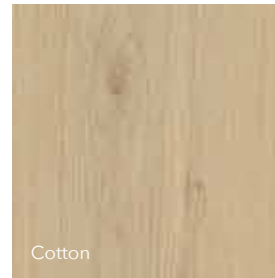

Color: Crystal / Collection: RIVA Elite / Project: Richland / Location: San Francisco, California / Interior designer: Tile+Ista / Photo credits: Philippe Newman.

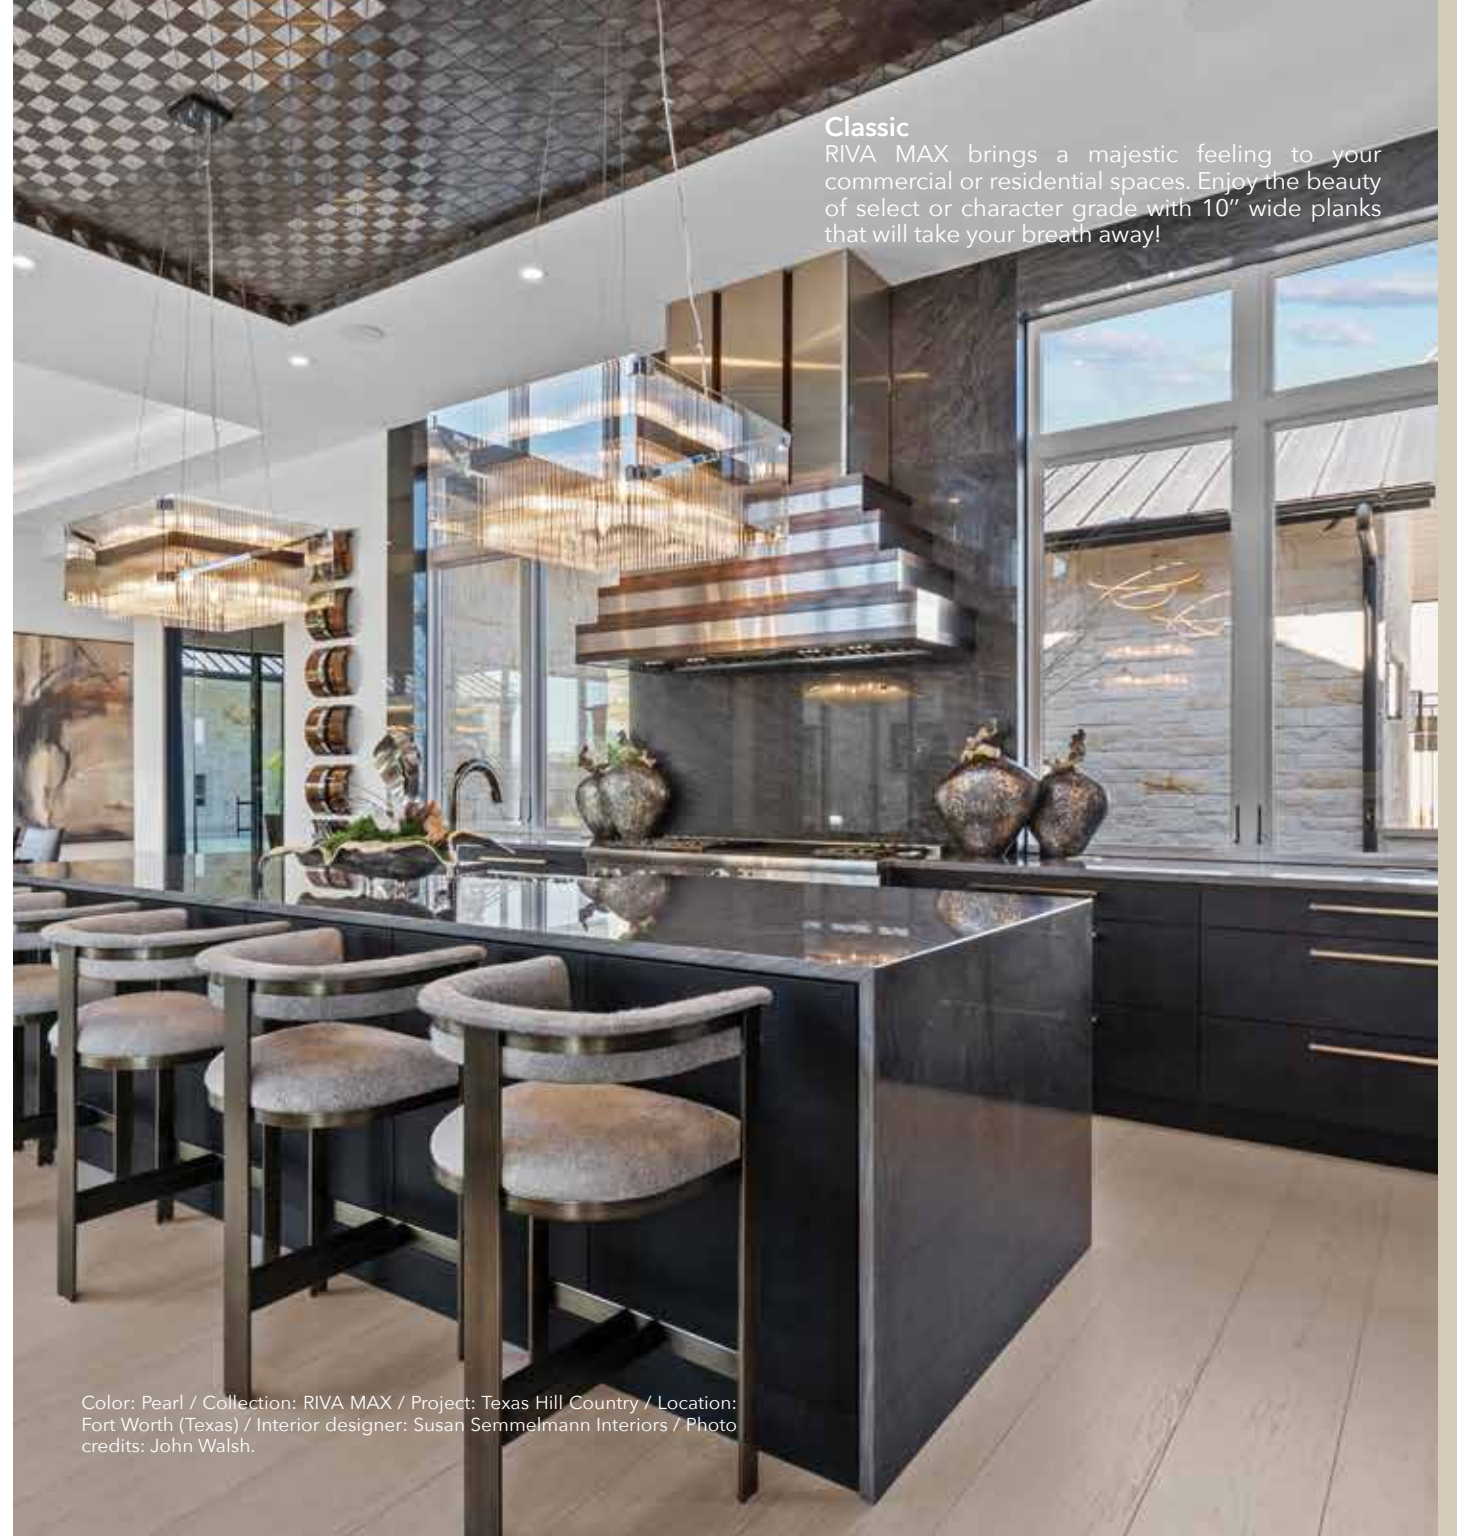

RIVA MAX 10"

Width	10"
Thickness	5/8"
Top layer	4 mm
Length	6 - 8'
Grade	Character Select
Species	European oak
Construction	Engineered
Finish	Bona® UV Matt Lacquer

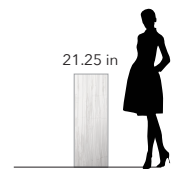

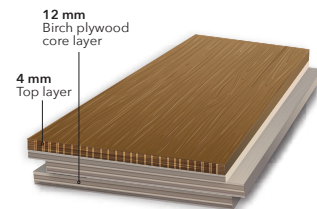

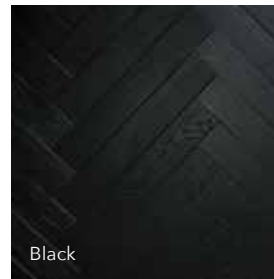

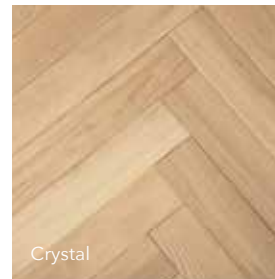

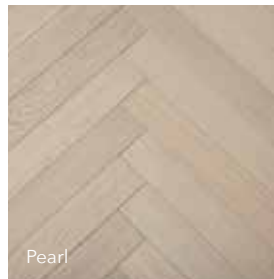

Classic
RIVA MAX brings a majestic feeling to your commercial or residential spaces. Enjoy the beauty of select or character grade with 10" wide planks that will take your breath away!

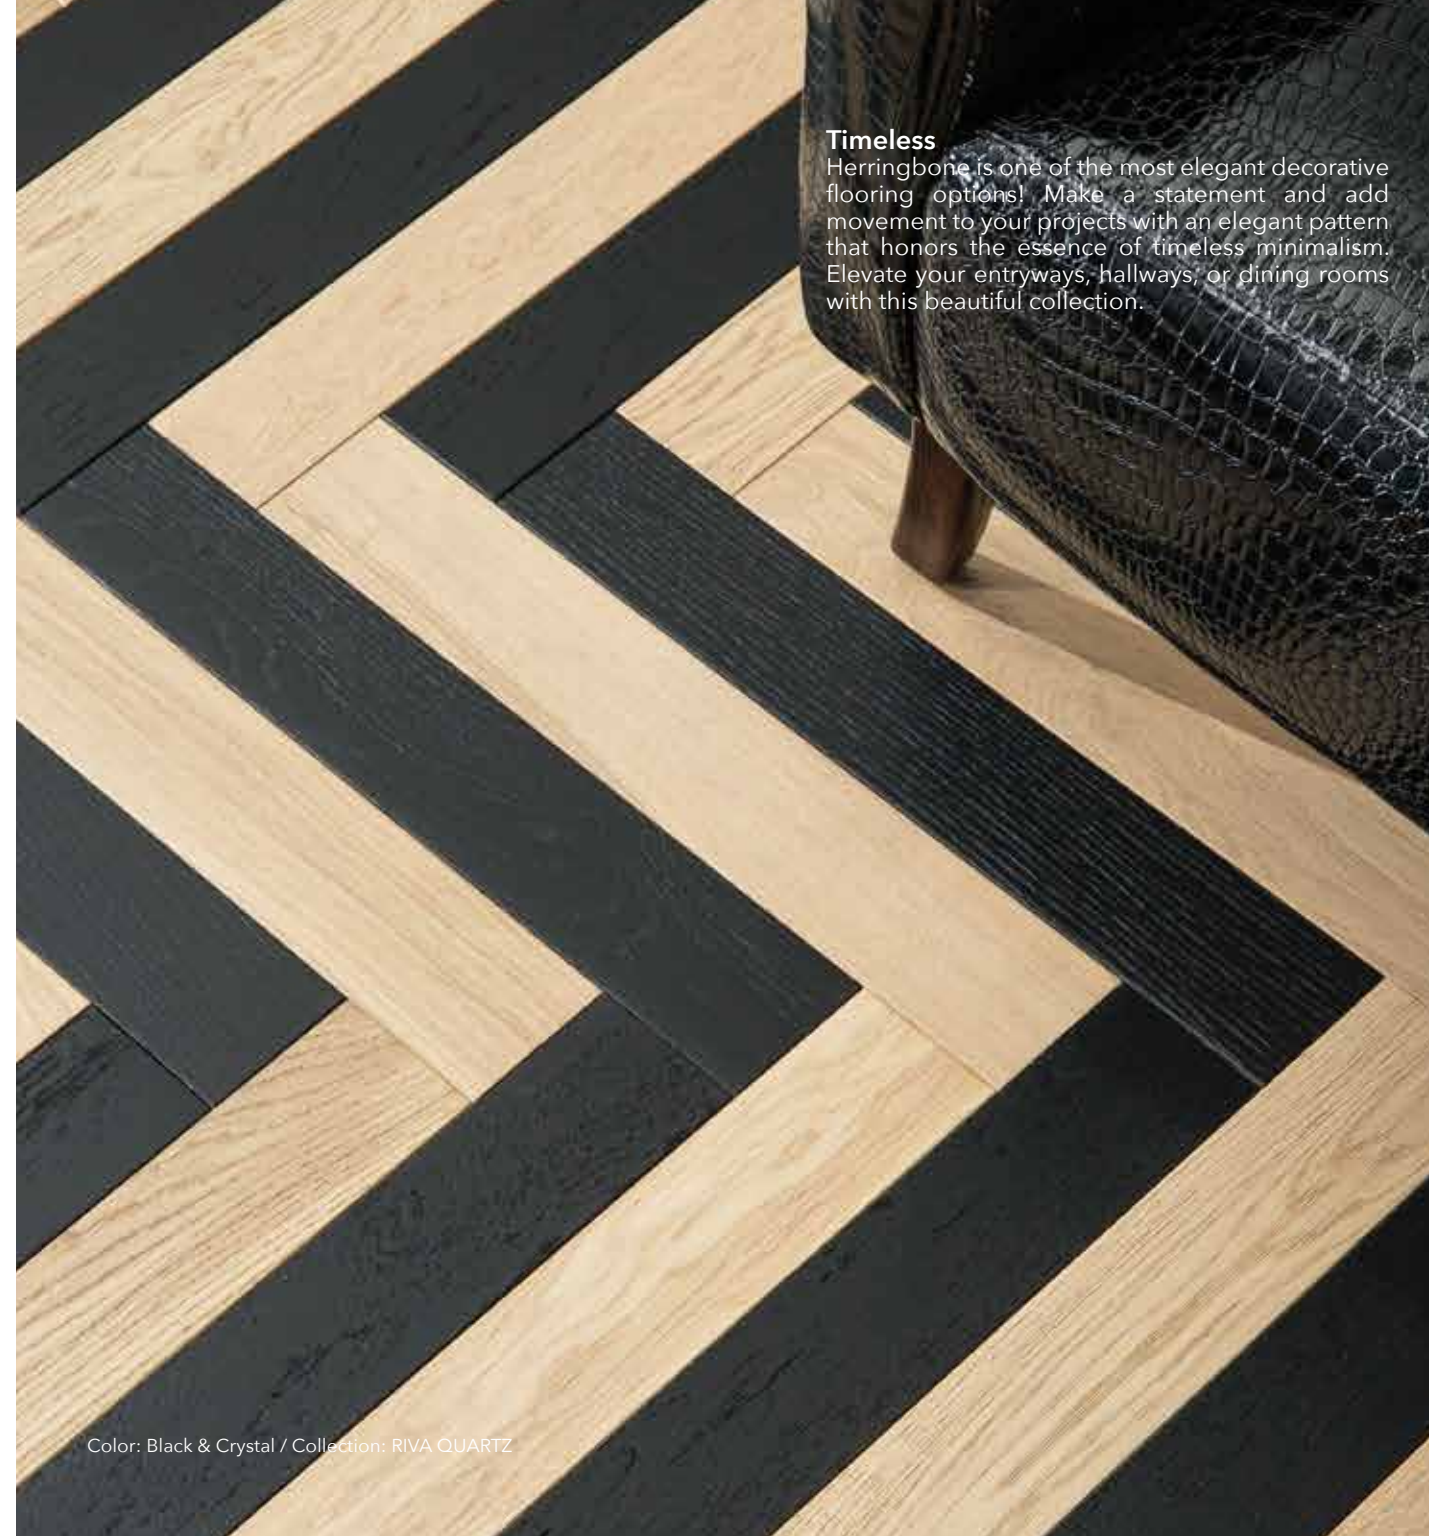

Color: Pearl / Collection: RIVA MAX / Project: Texas Hill Country / Location: Fort Worth (Texas) / Interior designer: Susan Semmelmann Interiors / Photo credits: John Walsh.

RIVA QUARTZ 3.5"

Width	3.5"
Thickness	5/8"
Top layer	3.2 mm
Length	21.25"
Grade	Select
Species	European oak
Construction	Engineered
Finish	Bona® UV Matt Lacquer

Timeless
Herringbone is one of the most elegant decorative flooring options! Make a statement and add movement to your projects with an elegant pattern that honors the essence of timeless minimalism. Elevate your entryways, hallways, or dining rooms with this beautiful collection.

SUSTAINABILITY

At RIVA, not only do we source from the highest-quality and most exclusive raw materials but also care about the environment. Our renowned hardwood floors include a 100% European oak top layer. Contrary to popular belief this is an overpopulated species, and it is a great option for wood flooring installations due to its high durability.

Beyond simply utilizing sustainable materials, we plant three trees for each one felled in order to reduce our footprint and honor our planet for its provisions.

RIVA has conscientiously harvested these resources for generations even as our team continuously researches and develops innovative and quality high-end luxury products.

OUR PROCESS

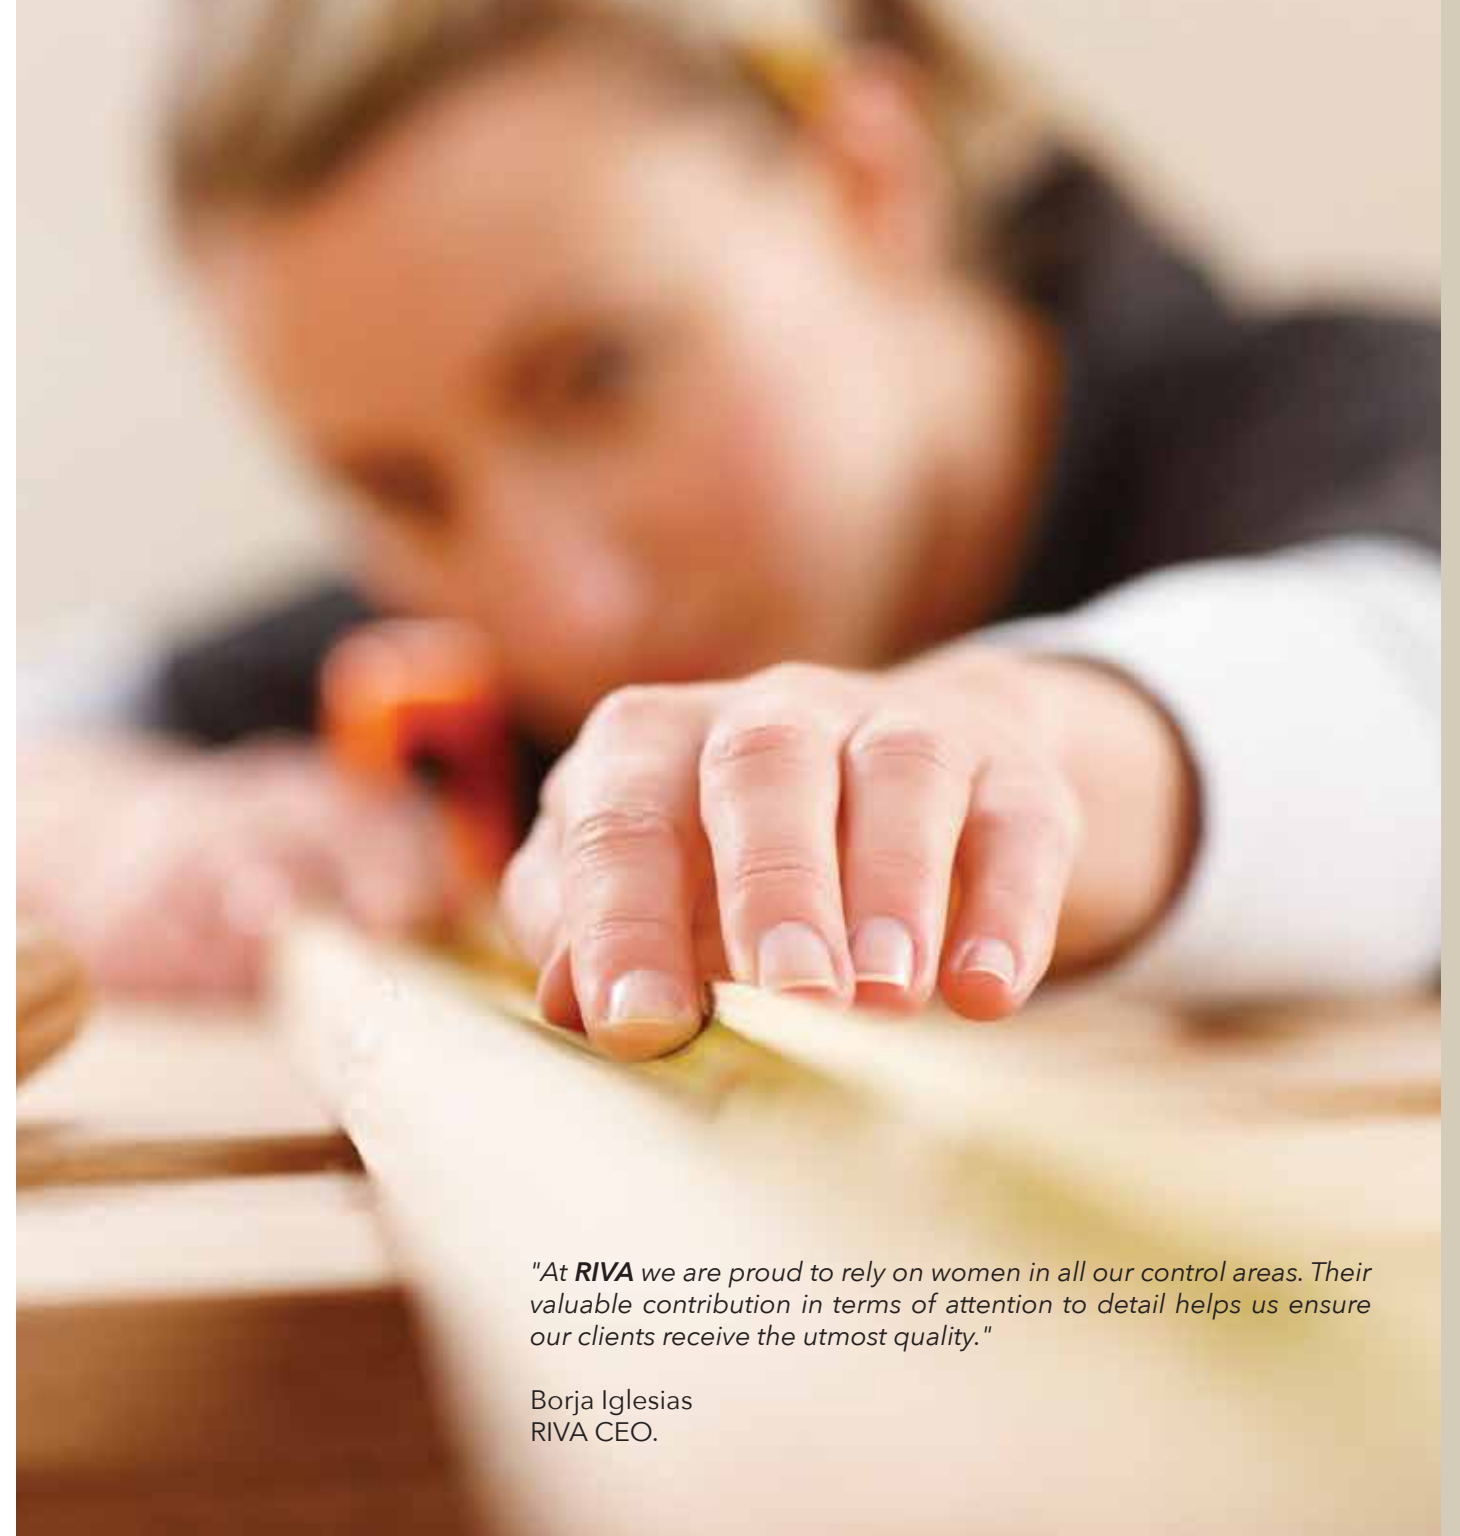

What sets **RIVA** apart? Decades of tradition and knowledge passed from one generation to another, continuous innovation, improvement and next level flooring solutions.

A MASTERPIECE OF WOODEN ENGINEERING

Our engineered hardwood floors feature two layers: our signature 100% European oak top layer, and several layers of birch plywood. To combine these layers, we use the highest quality glue in the market: 100 percent formaldehyde-free D4 adhesive, offering unparalleled resistance to moisture and structural integrity. Next comes a water-based stain. The wood is then passed through an oven that evaporates any extra moisture and produces a vivid dye. Finally, we apply six layers of UV-matt lacquer to guarantee maximum resistance. All finishing products are supplied by Bona®.

At **RIVA**, we have a diverse and carefully selected staff on hand in all our departments. We are proud to count many highly efficient, detail-oriented women as heads of our essential quality control areas to deliver the utmost quality.

The production line of our factory in Vigo, Spain, has been designed front-to-back to meet the highest quality control standards. We are committed to carrying on the legacy of our ancestors and providing our customers with the highest levels of design quality and potential in their flooring solutions.

*"At **RIVA** we are proud to rely on women in all our control areas. Their valuable contribution in terms of attention to detail helps us ensure our clients receive the utmost quality."*

Borja Iglesias
RIVA CEO.

CERTIFICATIONS

NWFA. We are proud members of the National Wood Flooring Association, an international not-for-profit trade association representing all segments of the hardwood flooring industry.

Forest Stewardship Council. It means that the wood or paper product comes from a forest that was managed carefully with trees, animals, and local community benefit at heart.

Lacey Act. The Lacey Act passed in 1900 was the first federal law to protect wildlife. It enforces civil and criminal penalties for the illegal trade of animals and plants.

Carb phase 2 compliant. Being CARB compliant means we follow California's standards for air quality and contaminants. The product does not pose any health hazards. California has among the strictest laws in the United States regarding hazardous and air quality in consumer products.

Interior emissions. Regulation to inform consumers in complete transparency about the level of volatile pollutant emissions from a construction or decoration product. A+ means there is little or no emission at all.

VOC free. No volatile organic compounds. This means the products are considered safe to use indoors.

DAP CONS. Method of quantifying the environmental impact of the manufacturing processes of construction products.

IQ NET Quality System. Our products follow the requirements of the standards ISO 9001:2015.

TSCA. The Toxic Substances Control Act of 1976 (TSCA) is a federal regulation that allows the U.S. Environmental Protection Agency (EPA) to comprehensively manage chemicals in U.S. commerce.

IQ Net Management System. Our products follow the requirements of the standards ISO 14001:2015

CONNECT TO NATURE

MOSS

WHAT IS PRESERVED MOSS?

Preserved moss is real moss that has been organically engineered to be able to maintain its vibrant colors and natural characteristics. All of our moss is sustainably harvested from different forests spanning across Europe. Once the moss has been harvested it undergoes the preservation process which is achieved by soaking the moss in a glycerine solution over several days.

During this time, the glycerin penetrates the cells of the moss replacing the water and effectively preserving its softness and flexibility. The resulting product is a beautiful natural material that can be used for an endless possibilities of designs.

BENEFITS OF USING PRESERVED MOSS

Experience the beauty of nature without worrying about its daily maintenance: Our sustainably-sourced moss has been carefully preserved to retain its vivid colors with no need for watering or sunlight.

Humidity stabilizer: Preserved moss helps you regulate moisture levels.

Improved acoustics: Preserved moss is a great option to efficiently absorb noise from your interior spaces.

Wellness: Studies show that surrounding yourself with a natural environment has a positive impact on your well-being.

BIOPHILIC DESIGN

Join this growing trend and incorporate elements of nature in your interior design. The idea behind the biophilic trend is that connection to nature has multiple benefits for your health and well-being. It creates a harmonious atmosphere while reducing your stress levels and improving your productivity.

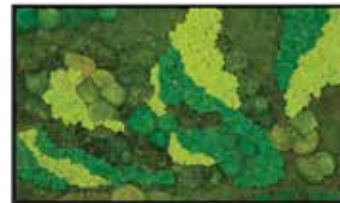

FRAMED

Hand crafted frames are the perfect choice to add a touch of natural beauty to your indoor spaces.
