

BRICKS TRANSPORT

Dear Valued Partner,

Due to unprecedented global market and supply-chain impacts, fuel prices have spiraled upward to some of their highest levels in history. Bricks Transportation has acted in good faith to resist seeking price relief as long as we possibly could. Due to the critical nature of the current situation, we can no longer continue to absorb the increased cost.

Therefore, effective June 1, 2026, we must implement a temporary fuel surcharge on all shipments. The fuel surcharge will remain independent from our base rates and will be shown as a separate line on our freight bill. The fuel surcharge amount will be charged on a mileage basis, reflecting the extra cost of the fuel used in the specific trip.

Our pricing is based on the U.S. Energy Information Administration Index (EIA) at EOD every Monday. We will review this data and our actual costs on a weekly basis. The figure used for cost per gallon is established by the average cost of the fuel per gallon in the U.S., the date of shipment, and the load's origination point.

We appreciate your understanding and partnership with us while we keep moving the goods and services that power the American economy.

Bricks Transportation

A Proud American-Owned & Operated Company
