7-10 Split conversion	Mini Flashlight
Big Four (4-6-7-10) Split conversion	Mini Flashlight
All Spare Game	Mini Flashlight
Dutch 200 game	Mini Flashlight

If you use league secretary software, the game, series and over average awards must be set up under the local awards tab. The USBC achievement tab will no longer be functional except for the 300 game and 800 series awards. Separate instructions on how to set up these awards will be provided upon request.

For the average based awards, you need to use the bowler's previous season average until a current season twelve (12) game average is established. A bowler with no previous season average is not eligible for average based awards until they have a twelve (12) game average this season

Award applications must be submitted within twenty (20) days of occurrence. There is a limitation of one award per award category per season (August 1 to July 31)

The local association must be notified within 48 hours of a 300 game or 800 series being bowled. A phone call to the association office or an email is the proper method of reporting the scores.

The High Score Awards for the 300 game and 800 series are now a once-in-a-lifetime award. High Score Award Applications still need to be filled out and submitted to the local association even if the bowler previously bowled a 300 game or 800 series. Even though an award isn't provided, the bowler will still get credit for the award score and it will be on their USBC Achievement Record that can be accessed on the Bowl.Com website. Awards can be purchased by the bowler through the Keepsakebowling.com or USBCBowlingAwards.com websites.
