ABOUT THE SHOW

PURPLE RHYMES WITH ORANGE is based on a book of the same name written by Fargo-based creative, Patrick Kasper. The show was first performed in January 2020 as a full-length musical after a series of readings and workshops. The musical adaptation featured a script and 12 original songs by Patrick who also directed, choreographed, and played the role of GREY for the premiere. The production received overwhelming positive reviews from critics and the audience attending the performance.

The show has since been adapted to a one-act play suitable for virtual or live performances. Additional production resources have continued to be developed to make this colorful show a fun and memorable experience for schools and organizations of all sizes to produce with ease.

SYNOPSIS

To find his true love ORANGE must embark on a whimsical and thought-provoking adventure to fill his TABULA RASA (empty slate) with people, places, and things.

On this journey ORANGE meets YELLOW a "beach granny", BROWN a punny lumberjack, RED who lacks the ability to rhyme, BLACK an ad man, WHITE a Broadway diva, NEON LEON an 80's Thigh Master, GREEN, a materialistic snotty girl, and finally PURPLE, his soul mate.

**"If you're looking for a comforter
you can find them all around
To fill your slate with diversity,
lay your blanket on the ground
Patch your life together with joy
and the prism you will have built
Will make room for everyone to
share your welcoming quilt."**
