

## **DRUG FREE!!**

I have been taking this drug over 5 years. I don't quit now, it's too hard, I have to, it's throwing my life and career away. I'm breaking up my family and my friends are slowly dying away. I hate that my kids have to call the police and see me like this, my kids get taken away because I can't stop. I hate that I put my kids in danger when I get behind the wheel. If I don't stop I might die, my kids will go to foster care or they will live with their grandparents. When they grow up I hope they will remember me. I hope they will have a special place in their heart for me. **DON'T DO DRUGS THEY WILL KILL YOU NO MATTER WHAT!!**
