

Drugs are things that make you think you fast like a race. Family is what you can not replace.

Juice WRLD said he would be fine

But 6 days after his birthday, he died.

Drugs mess with your mind.

Don't let that fly by.

Don't try and lie about what you are trying to hide.

Your life changes when you take drugs.

Drugs are like bugs

They leave and come back.

Some drugs stay and never go away like Gnats.
