

2022 ELECTION

UCFA's goal is to take back control of our local community through the elected positions. We need people in our local government and local schools who have a backbone and will stand firm in their moral convictions and fight for our family, our freedom, and our heritage as Americans. We have sat idly by and abdicated our responsibility for too long and now we are reaping the consequences of our own apathy. Time to fulfill our duty as leaders and create a brighter future of our children and grandchildren. If you are interested in running for public office contact us here:
