### OUR MISSION

NABWIC was founded to increase the national awareness of Black Women in the construction industry.

Our charge is to:

- Advocate for Black women-owned construction businesses for contract opportunities.
- Create strategic environments that support educational, entrepreneurial, professional, and social network connections.
- Train the next generation of Black women and minorities in the construction industry.

### Re: NABWIC/MBDA FPC Resource Partnership

Dear Mr. Moore,

The National Association of Black Women in Construction (NABWIC) is honored to be a resource partner with the Minority Business Development Agency's (MBDA) Federal Procurement Center. It is our mission to make sure our NABWIC members have access to the highest level of opportunities from the Bipartisan Infrastructure Law and federal procurement contracts. We see this relationship as a steppingstone for our members who are stakeholders in their communities around our great country. This is a wonderful opportunity for them to strengthen their businesses and a chance to build back our local economies stronger and better than before the pandemic.

We have enlisted our membership to utilize the services of the Federal Procurement Center (FPC). We have circulated the client welcome letter and the request for company capability form. We are also increasing our membership activities to ensure we have a continuous flow of participation in this effort.

We want to help you meet the goals of the FPC by continuing our outreach programs to Black Women in construction. We are also looking forward to participating in grant activity that will strengthen our ability to grow and manage our membership for opportunities such as this.

Thank you and we look forward to a successful year.

Sincerely,

Ann McNeill, Chairman
