

"SOIL YOUR UNDIES"

SOIL HEALTH WORKSHOP

August 30, 2023

5:30 pm-7:30 pm

4-H Building @ MetraPark

This spring MSU Extension Yellowstone County soiled our undies in the name of science! We buried a pair of 100% cotton undies in the hopes that microbes in the soil will break down the planted undies. We challenged many of you to do the same and can't wait to see everyone's "harvest" photos.

In conjunction with the challenge we are hosting a soil health workshop, everyone is welcome to attend whether you planted your very own pair of undies or not. If you did participate in the challenge please bring along your "harvested" undies and a sample of soil.

Agenda-

5:30 pm- Introduction

5:40 pm- (Stations 20 min. each)

- Dirt Cake DIY- 4-H
- Soil 101 - NRCS and Pheasants Forever
- Crops and Soil Microbes - Trestin Feagler, MSU Extension Yellowstone Co.
- Stream Table- Edie Vogel, Yellowstone Co. Conservation District, and Megan Hoyer, Yellowstone Co. Weed District

7:00 pm- Workshop concludes

Hotdogs, chips, and drinks will be available for purchase from the 4-H Interstate Exchange
