# TAKE A LOOK: SCHEELS OPENS NEWEST LOCATION IN EDEN PRAIRIE, MN

Sporting goods company, Scheels, opened up a new store just this past year in Eden Prairie, MN. This 250,000 sq. ft. retail center features about 17,000 sq. ft. of electrochromatic glass, installed by one of the manufacturers we represent, SageGlass. This specific type of glass installed in this new area maintains the flow of natural light into the building, while also managing energy usage in order to keep up with the growing demand for sustainable products. Being apart of this large project was quite fulfilling, and to see it all finished and open to the public makes it even more surreal to see.

## PROJECT INFORMATION

**LOCATION:** Eden Prairie, MN

**CONSTRUCTED BY:** Kraus-Anderson

**GLASSWORK:** SageGlass

**SCOPE:** Retail
