1. Specialized Expertise in Post-Divorce Design

Unlike typical interior designers, we focus specifically on helping men navigate the emotional and practical challenges of divorce. We understand the unique needs of clients during this transitional time, from worrying about the kids, to managing work demands, and meetings with lawyers, judges, and therapists...It's a lot. We handle the new home and take it off your to-do list.

HOW WE ARE

2. Speed and Efficiency

We understand time is important. Getting a new home fully set up can take months. We prioritize our Fresh Start Clients and utilize in stock or ready to ship products in these designs.

3. Children

We keep children at the forefront of our design. Whether it involves favorite colors or hobbies, to the fabrics and performance of furniture or housewares. Men with kids, have unique needs when setting up a new home.

HOW WE ARE

• • • DIFFERENT • • •

4. Who are you?

The new home is now all about you. We help men figure out what style they like, what will this new home have to make it feel like home, unique to them. Sometimes it's colors, or decor items. Figuring out what you want is a goal in our first meeting.

5. Dreams

This new home is about your dream for the future. It's about how you want your life to be moving forward. We talk about what is important to you and see what we can incorporate into your new home, as you begin to create this vision for the future.
