

Renderings & Space Plans

Professional Visualization Support for Interior Designers

At Crafted Interiors, we collaborate with design professionals to produce enhanced photorealistic renderings and detailed space plans that elevate presentations, improve client approvals, and support seamless project execution.

Professional Support for Your Design Process

- 2D Space Plans – Floorplans and layouts for furniture placement and flow.
- 3D Renderings – Realistic visualizations for materials, finishes, and lighting.
- Concept Boards & Material Overlays – Cohesive palettes and mood presentations.

Why Designers Partner with Us

- Enhance client confidence and reduce revisions.
- Expand your capacity—delegate rendering while keeping your creative control.
- Professional-grade visuals branded for your firm.
- Precise details based on your measurements and design..

The Collaboration Process

1. Schedule Introductory Call (Required for Project Introductions)
2. Complete the DF Team Member Set Up
3. Fill out the Crafted Interiors Project Form
4. Send/Upload your design files—floor plans, sketches, measurements, or images.
5. Sign Contract
6. Submit Invoice Payment
7. We build and render—delivering presentation-ready visuals that you have access to use at any time within your DF account.

Deliverables

- 2D floor plans (PDF or image formats)
- Photorealistic 3D renderings (unlimited angles and quantities)
- Full DesignFiles access and control to edit, adjust or modify

Designed for Collaboration

Crafted Interiors partners with designers to transform concepts into high-quality visuals. Our goal is to make your presentations effortless and your projects seamless.
