

Fresh Start Attorney FAQs

Helping Your Clients Start Over with Efficiency, Stability, and Design

What is the Fresh Start program?

Fresh Start is a design and home setup service for individuals navigating divorce. We help your client create a supportive, livable environment that reflects stability and confidence in their new chapter.

How does this benefit me as the attorney?

We help your clients make faster, clearer lifestyle decisions, so you can focus on legal strategy—not where they'll live, how they'll furnish it, or how emotionally overwhelmed they are.

Can this impact custody cases?

Yes. A safe, stable, child-appropriate home environment can positively influence custody outcomes. We work with clients to ensure their living space supports their role as a responsible co-parent.

Is this therapy or life coaching?

No. We're not therapists—but our design process often has therapeutic results. By helping clients reclaim and redefine their space, we support emotional clarity and forward momentum.

What services are included?

- Design consultation & space planning
- Full or partial furnishing
- Move-in coordination
- Custom children's rooms
- Complete essential items set-up (sheets, towels, dishware, etc.)

Will I be involved in the process?

No. Once referred, we handle all logistics and client communication—while you focus on the legal priorities.

Is client confidentiality maintained?

Absolutely. We operate with complete discretion. Our process is private, professional, and tailored for high-stakes, emotionally sensitive situations.

Is this service only for high-income clients?

In addition to the investment in the furnishings that will be in their new home, clients will be charged a Design Fee for the service provided.

How do I refer a client?

Email us at hello@craftedinteriorsfl.com. We also provide branded postcards and print materials to offer clients during intake.
