

Medical Multi-Plasma Solution

PLA X POT™

Medical Multi-**PLASMA** solution

Plasma **Arc**

Plasma **Lifting**

Not electrical arc but **genuine plasma arc** for the best assistance of plasma applications

Simple and ergonomic design for comfortable grip of stable operation without stress

- All-in-one system with 2 changeable types of plasma treatment probe
- Easy to use with full color OLED display
- Three level of output power adjustment
- Rechargeable battery-powered

Multi-plasma Cosmetic Treatment

PLA X POT™ Highlights

Genuine plasma output

To be different from a simple electrical arc of high voltage. Genuine plasma output by the plasma generator

Plasma Arc

Plasma Lifting

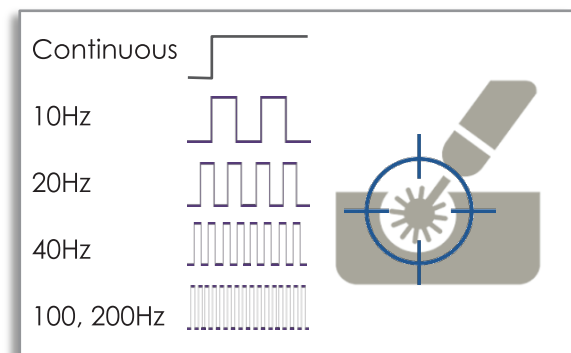

Model Name: GPX-2000

Specifications

- Output power: selectable 0.7W, 1.0W, 2.0W
- Output frequency: 70kHz
- Output mode: continuous, pulse
- Pulse rate: 10, 20, 40, 100, 200Hz
- Display: 1.5 inch full color OLED
- Treatment heads: plasma arc, plasma lifting
- Power supply: internal 7.4V 850mAh lithium polymer rechargeable battery with dedicated charger
- Weight: 120g
- Dimension: 185 x 40 x 40mm

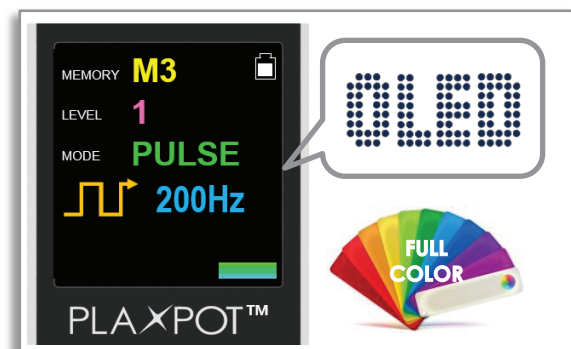

Precise control by pulse mode

Not only continuous mode but also pulse mode supports for more precise control as similar with CO2 laser equipment

The newest OLED display

Full color OLED display with simple and intuitive interface
