BIO

I've been a Graphic Artist for 20+ years. Out of college, I worked for 5 years for Coldwell Banker Real Estate's corporate Design & Production Studio, and then for 13 years for a newspaper called the *Orange County Business Journal*. Along with my full-time employment, over the last couple of decades, I've also done a plethora of freelance design projects for various companies, all of which have provided me with extensive experience in advertising, marketing, publishing and brand identity. I'm capable of creating a broad range of design styles, pay close attention to detail, and am also skilled at writing and proofreading.
