

**Retirees Association of Suffolk Community College
Old Picture Project Set 10, Part 2
The Move to Sagtikos from Alpha, 1988 -1989**

This is how the digitalizing of these pictures began. It was Mary Lou DeFilippo who made me aware of the existence of these pictures. It was Joan Cook, Kevin McCoy, and Dana Antonucci-Durgan who made it possible for me to have access to these pictures. Now we need all of you SCCC old-timers to do your part. As you go through these pictures let us know if you remember the names of anyone in these pictures. If you have an observation or comment about a picture or object in a picture, please let us know. This project is not finished until we have all your input so email what you have, rasccpeter@optonline.net. If you have old SCCC items please donate them to the college's archive.

Thanks,
Pete Herron

Below are the emails that got this project started.

Hi Pete,

I enjoyed browsing through the photos on the retirees' website; especially those from the past. In a former email I mentioned that there is a photo album on reserve, but not current in the library at the West Campus. It documents the move of the science department from the Alpha Building to the Sagtikos. When old photos were asked for, I tried to get it but the librarian was not very helpful. Perhaps Joyce or Kevin would have better luck.

The PA's at that time packed and unpacked and set up the five labs in the Sagtikos Building. It was no small feat since workers were still on site!

I hate to see these photos passed by.

Thank you for your volunteerism and that of each officer on the retiree board of directors.

Sincerely,
Mary Lou DeFilippo

Pete,
Thanks so much. Our PA's in the science department at West were the greatest! Sometimes we had electrical workers wiring various areas of the lab as we worked. And of course, the lobby was accessed by wood planks!
Thanks for perusing the album with my photos!
ML

Set 10, picture 108

Here are the PA's who organized the Science labs at Sagtikos when the building was new. They are the ones who made happen.

Seated: Marie Barnouw, Dorothy Chanin, and Lois Mohlenbrok.

Standing: Connie Baratta, and Mary Lou DeFilippo.

Marie, Connie, and Lois are still adjuncting (2024!) Marie at Ammerman and Lois at Grant.

Dorothy and Mary Lou had a wonderful crew of PA's back then.
