Pet First Aid and CPA Training

What would you do if...

...your pet stops breathing and has no heartbeat?

...your pet is choking or has a seizure?

...your pet shows signs of life-threatening conditions like bloat/GDV, a urinary blockage or heatstroke?

Crossroads Campus is offering Pet First Aid + CPR classes to help you learn what to do in the event of a pet medical emergency. No previous medical training is necessary.

Attendees will learn valuable information about:

- Avoiding hazards and keeping four-legged family members safe and healthy
- Remaining safe when caring for an injured animal
- Basic CPR and mouth-to-snout rescue breathing, with time for hands-on practice
