April 14, 2023

Attn Henry Armstrong,

Food Donation Connection (FDC) currently coordinates food donations from over 18,000 restaurants to 9,000+ agencies through our National Harvest Program. In this program surplus prepared foods are donated, under specific guidelines for food safety, and linked with 501(c) 3 nonprofit organizations such as yours.

Each time food is picked up from a donating restaurant, the recipient agency representative is required to sign a document stating the amount of food they received. We request that adequate records be maintained in case of any recalls or audits.

Our records show that your charity has been linked with the KFC #D016009 located at 18401 S Avalon, Carson, CA 90746 since 7/20/21. The data report we ran indicates this KFC restaurant donated 226 lbs in 2022. Your charity was also assigned to the Pizza Hut restaurant located at 2037 Avalon Blvd, Carson, CA from 8/30/22 to 3/27/23 and received 714 lbs in 2022

There is no guarantee that the restaurants we have assigned to you will donate the same amount of food in 2023 as their donations are based upon several economic variables such as general market economic conditions and continued favorable tax legislation. However, the donor is extremely committed to the Harvest Program and giving back to their local communities. We do find that normally the trend stays similar from year to year once a restaurant starts saving their product as opposed to discarding.

As I'm sure you are aware, the key to the successful partnership between your organization and the restaurants is open communication, and ensuring that the pickups of the food are made on a consistent basis. Your excellent past record certainly indicates that there are no issues for you.

We look forward to our continued partnership with your organization and getting surplus food for those in need.

Warm Regards,
