

Property Team Present:
Date: November , 2020
Meeting Called to Order: No Meeting Held
September/October Updates

Even though there was no official meeting held again this month, things continue to get done by the Team as needs arise.

- **Updated the exit lights in the Sanctuary and two other exit doors to new Led Fixtures.**
- **We had a second backup of the drains from the preschool bathrooms. Had a Rooter company come out and run the lines under the fellowship hall and to the street. \$95 cost.**
- **Now that more leaves have fallen since Fall Fest we continue to pick up leaves. A seemingly never ending project. The Wind has helped some.**
- **With the help of Bruce Smith we finished the shut down of sprinkler system by blowing out the system water lines. Good to go for the winter now.**
- **The LED lighting project is still in process. We have had some difficulty sourcing some of the new fixtures for the East exterior and the sconces in the Narthex. This has held us up in submitting the request.**

Action Item for Council:

Next meeting: Not sure at this time???

Respectfully Submitted
