

MONTHLY PROPERTY TEAM REPORT

Property Team Present:

Date: 2021 September----No Meeting held

Meeting Called to Order:

August/September Activities:

- We are still having periodic noises coming from one of the Sanctuary A/C units. We believe it is the other old unit, not the new one that was replaced last fall. I have called in Tobin to come and troubleshoot it again and get their assessment. If it is the old unit it doesn't make sense to put much money in it. We will see what they come up with.
- We did have water backing up on the roof and causing a problem. The problem was plugged drains on the roof caused from some of the high winds and heavy rains dropping debris on the roof and plugging the scuppers. It became necessary to shed shoes and socks and wade into the water to clear the drains. No scuba gear was necessary.
- The Church Mice have been active keeping the outside weeds pulled and in general sprucing things up, along with other odds and ends that keep coming up that need to get taken care of by the Property Team.

Action Items:

FALLFEST is scheduled for October 16th. Everyone is invited to participate!! This is where we basically get the church ready for winter and rake leaves and take care of any bigger projects outside that need to be addressed as well as some things inside; as needed.

Next meeting: Unknown

Fellowship dates for Property are:

Respectfully submitted,
Brian Last
