

## W&M Report September 2020

Started a successful outside worship with sound, communion, and singing on 9/6

Feedback: Make sure to collect offering at the beginning of service off tables.  
Have ushers come up through the grass to present offering.  
Move alter and Pastor closer to the front of the porch area  
Single serving communion works well, looking into an option for juice as well.  
Just being mindful of who is actively taking part in the service when setting up, so it is accessible to all.  
Technology is still a work in progress for live feed, will do more testing before next outdoor Sunday.  
Maybe get sprinklers turned off the night before.

Future planning: Outside service every other week until Nov with goal of starting “safe worship” inside the sanctuary (working on proposal).

9/20 - Outside service with communion

9/27 – Children’s sermon

10/4 - Outside with blessing of the animals/ silly pet tricks with the kids after service.

10/18 – We will see how the weather projection is.

11/1 – Inside (All Saints Sunday, Day Light Savings, & Stewardship intent), possible break into two services to maximize participation.

11/8 – Bishop Gonia to do a presentation via zoom.
