

# Membership Nomination

EWC<sup>2</sup> was originally founded in 1955 as the Engineers' Wives Club to foster social relationships and offer programs in the interest of education, social welfare and philanthropy. It provided an instant network for engineers and their families settling particularly in the Lakeland area. Since then the group has continued to grow, adding women engineers to the membership, resulting in the name change—EWC<sup>2</sup> (Engineers' Wives Club and Engineer Women's Club). Since the club's founding, 40% of the dues collected have been used to provide engineering scholarships. That continues to be a focus today as we provide annual scholarships to Florida's newest university, Florida Polytechnic University in Lakeland, FL.

Membership is simple. Engineers or their wives, widows, divorcees are eligible. Prospective members fill in this application with a sponsor and attend one meeting prior to joining the club. Each applicant will have one sponsor and 2 co-sponsors. Sponsors must be active members and are limited to sponsoring one and cosponsoring one applicant per year. Dues are \$45 annually, plus a one time \$5 fee for new members. Members joining after January 1 pay only 1/2 of the annual dues, or \$22.50 for their initial year, plus the one time fee of \$5.

Candidate Information	
Name:	
Home Address:	
Phone	Email:
Occupation:	
Company:	
Position:	
College(s) attended:	
Degree(s) received:	
Interests and Strengths: (How would you like to participate?)	

<b>Spouse Information (if applicable)</b>
Name:
