

Coyle Solar Workmate CM6 Description

- Photovoltaic generated electricity
- Accepts AC input from generator or existing solar installation
- Controls auto-start generator
- Hybrid synergy with generator for optimization of fuel consumption rate
- Military grade off-road trailer with
 - Specialized anti-corrosion treatment
 - Robust all-weather unitized design
 - All hardware 316 stainless steel
- Arrives fully operational, always 'on'
- Optional integrated water pumping & filtration
- Secure storage

Coyle Solar Workmate CM6 Base Specifications and Options

- **PV Array:** 3 - 300W 60 cell - 6-8+ kWh/Day
- **Battery Bank:** 4 Gel/VRLA - 10.8 kWh
- **Inverter/Charger:** 4 kW Cont. / 12 kW Surge; 120 VAC/60Hz AC, Pure Sine Wave
- **Power Interfaces:** 20 Amp GFCI outlet, 30 Amp Outlet, 50 Amp - AC charging Inlet
- **Battery Monitoring:** Bluetooth Enabled Battery Monitor & Volt Meter
- **Chassis:** High quality, corrosion resistant, single piece enclosure; US DOT certified: MCO & VIN#
- **Warranty:** 12 Month Limited, 60 Month prorated battery warranty
- **Options:**
 - PV array: Up to 2.6 kW, more upon request
 - Battery Bank: Up to 25 kWh, more upon request
 - Charging Interfaces: 12V DC; USB outlet
 - Water Delivery System: 5 GPM, Self-Priming, Run Dry Tolerant
 - Seawater Reverse Osmosis: 220 - 375 gal/day
