

FIRST LOVE

Howard James Fyvie © April 2019

I remember, that feeling,
Like I'd been born again
That fire, underneath me,
Never to fall again

It's a been a while now
Getting old now
Like know how it's done

Would you forgive me,
I think I miss me,
Show me how this is done

**My heart's poured out to you,
Lord I know it's true
I wanna find my first love again
With a hunger in your eyes
Dancing in the night
When I had my first love again**

There's a battle,
All around me
They trying take me back down

I can feel it,
Gotta fight it,
By the power of love,

**My heart's poured out to you,
Lord I know it's true
I think I found my first love again
That fire in your eyes
I'm dancing in the night,
I think I found my first love again**

*All the fires that have burned low
Now be awakened again*
