

LATE NIGHTS IN HEAVEN

Howard James Fyvie © August 2019

It was raining heavy on that night
They came flying through the traffic light
I was turning, I was turning, I was turning inside out

My body moving through the atmosphere
To a place where there's no more fear
You were calling, you were calling
You were calling "come my dear"

Then I saw you standing there with the angels all around
And all I could do was fall to the ground

**Fall to the ground
We got these late nights in heaven
In love now forever with you God
But my body falls back
to the ground**

I thought a lot about eternity
I never knew that it would be this free
We were laughing
We were laughing
We were laughing endlessly

*Then behold,
I saw the mountains and the skies begin to fold
I saw a figure coming on a lightning bolt
And every nation every tribe was bowing low
Underneath my feet was streets was streets of Gold*

*I saw a hundred million billion different souls
They was worshiping and bowing to the floor
It was the greatest thing my mind had ever known
It was the vision of the lamb upon the throne*

**There is no one
There is no one like you
We got these late nights in heaven
In love now forever with you God
As I feel you lift me from the ground
I'm lost in your presence
From now til forever with you God**

Then you told me it was gonna be wild
I could tell by the look in your eyes
You were calling
You were calling 'come my child'
