

# A Word from Designer Concepts Landscape Architecture

Hello Friends-

Thank you for your patience as we have spent the last few weeks finalizing the details for this transition. It was important to Corey and me that we not leave you hanging without a good solution to continue the care of your landscape. I am excited to introduce you to JR's Landscape Services. John and Malena Rogers have been friends for over 20 years. We have worked together on many projects over those 20 years and their commitment to professional excellence and customer service is second to none. Corey and I appreciate the trust you have shown us over these many years. John, Malena, and their team will continue to honor that same level of trust. There is no one I would more willingly trust your landscape to.

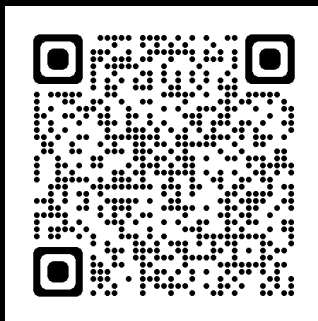

Blessings,

Ryan Palm
