^{GS} Applebee's defines gluten sensitive as menu items prepared without gluten-containing ingredients based on information from our approved suppliers. We do not claim that items marked as gluten sensitive are "gluten free" because we cannot confirm that they meet the FDA's definition of "gluten free" (<20 parts per million of gluten). Because we have multiple sources of gluten, allergens, and animal products in our shared cooking equipment, including common fryer oil and grills, we are unable to guarantee that any menu item can be completely free of gluten, allergens, and animal products.

^{GS} Can be made Gluten Sensitive without breadstick
