

ECO CAMP 2023

There is no Earth without Art

July 24-28, 2023 Monday-Friday 9:00 am - Noon

@ Port Royal Baptist Church Family Life Center

Wildlife is filled with art. From the beautiful colors of flowers, the songs of birds, the dances of honey bees and to the construction of sea shells, artwork is all around us. Science is filled with art. Ornithologists are able to determine what owls eat by putting together the skeleton found in their pellets after a meal. Entomologists can help insect populations by constructing bug hotels, and watering stations. Herpetologists can protect amphibian and reptile populations by reusing items to create natural homes for them.

Join us for Eco Camp as we learn about conservation and the protection of our local wildlife through construction, sculptures, fabric dyeing and more!

Crystal Lake Park
124 Lady's Island Drive
Beaufort, SC 29907
