WHERE PEOPLE MIGRATE

RESHAPING THE WORKPLACE

Workers need variety and choice to perform their best. They seek cozy spaces that inspire and engage. Designed by Brian Kane, Flock creates settings that are comfortable, warm, and inviting — the types of spaces that attract top talent. Wherever people want to gather, share ideas, focus or simply relax, Flock gives them the freedom of choice they crave to accomplish more.

WORK / LIFE BALANCE

In a world that increasingly values freedom and mobility, fewer people are distinguishing the workday from the rest of their lives. We all work everywhere now, constantly seeking out relaxing spaces to drop in and get something accomplished. Flock blurs the lines between home and office, bringing casual settings into the workplace that allow everyone to find the comforts of home they crave.

WELLNESS IN THE WORKPLACE

We've all heard about the sit-to-stand revolution, and a focus on wellness in the workplace continues to change the way we work. Flock invites movement, relieves stress and supports relaxed postures by encouraging everyone to work in a comfortable change-of-pace setting.

FREEDOM OF CHOICE

When given the choice, most of us gravitate toward spaces that match our changing needs throughout the day. Creating hubs for people to engage, socialize and be productive supports today's agile workforce. Flock is that versatile collection that offers more choice over how and where work happens, which leads to a happier, more creative culture.

ENCOURAGE ESCAPES

Coffee bars. Café. Lounges. These are the settings today's workforce explores outside the office to get work done. They help to relax, refuel and refocus. Arranging Flock in common areas within the workplace gives companies an opportunity to bring people back to the office and promote movement, invite interaction and enhance productivity. A total win-win.

MAINTAIN CONNECTIVITY

Flock offers everyone a creative outlet, literally. Easily accessible, yet discrete, Flock's flexible power options give you the ability to charge up wherever, whenever. Turn a small space into a think tank. Position lounges near an LCD screen to share your vision. From powering up to empowering people, Flock provides a meaningful connection.

NATURAL INSPIRATIONS

It's a fact that working near natural light improves creativity, productivity and focus. That's why we made Flock to gracefully wind around architectural elements—maximizing valuable real estate and bringing people closer the outdoors. So go ahead and draw inspiration from nature. Boost morale with natural light. Stimulate creativity with vibrant fabrics. Flock was designed for this nature of work.
