Transforming Learning Environments

At HON, we know that learning doesn't sit still. It moves through morning arrivals, collaborative bursts, focused moments, and well-earned breaks. That's why we design for every part of the school day—so when the space works, learning works better.

Whether you're refreshing a classroom or reimagining an entire district, our team is with you every step of the way. With adaptable seating, durable desks, and inviting environments for both teamwork and downtime, HON solutions are built to support how learning really happens.

It all starts with three core beliefs.

These shape the way we think, the way we work, and the way we help schools create spaces where students and educators can thrive:

Trusted Partnership

Partnership means more than products. It's a shared commitment to understanding education from the inside out and delivering thoughtful solutions that reflect your values.

Fresh Products that Matter

We create flexible products that meet the demands of daily school life while supporting focus, collaboration, and the evolving needs of students and teachers.

Unmatched Capabilities

From first idea to final install, we bring the tools, expertise, and hands-on support to turn your vision into a learning space that truly works.

Color influences mood, identity, and behavior—and in schools, it shapes how students feel, engage, and move through the day.

At HON, our Color in Motion approach—grounded in research and shaped by educator input—supports focus, flexibility, and function with intentional color choices made for today's learning environments.

Here's where it matters most:

Enhancing Academic Excellence by aligning color choices with age-appropriate goals to create environments that help students flourish.

Flexibility Through Design using color to support students' learning modes.

Empowering School Identity with color that promotes student belonging and strengthens community spirit.

Look for the Color in Motion icon throughout the lookbook to see how color theory is applied in education spaces.

See What's *New*

Discover new enhancements across our products—including improved durability, fresh colors, versatile finishes, and design updates that make a difference. We've also added two new series to our portfolio, giving schools even more flexibility and functionality to support today's dynamic learning environments.

Build™

A New Look in 2026!

Build—Built for Today's Classrooms

Designed with a broader leg profile to withstand the demands of active learning, our new Build Student Desk offers a streamlined look that delivers stability while elevating every classroom's aesthetic.

See page 60 ►

NEW Multipurpose Seating

Etch—Learning Looks Good in Every Shade

With a wide range of colors and eye-catching perforations, Etch turns everyday classrooms into inspiring spaces.

See page 75 ►

NEW Mobile Flip Tables

Field Trip—Flip the Script on Learning

Field Trip transforms classrooms with flip-tops, effortless mobility, and a safe, student-ready design that adapts to every lesson.

See page 64 ►

Refreshed Shell & Paint Colors

SmartLink—Color Your Classroom and Every Space in Between

Our student chairs now feature vibrant, refreshed shell colors that add energy and personality to any space. Plus, an expanded range of paint finishes is available across our chairs, desks, tables, and storage units—giving you more ways to customize and coordinate your learning environment.

See page 58 ►

Expanded Finish Options

Class-ifi—Smart Surfaces for Smarter Spaces

Previously available on end panels, the Markerboard finish can now also be specified on cases and doors making this writable surface perfect for lessons and creativity—wherever inspiration strikes.

See page 78 ►

Classrooms

Whether it's English 101 or Advanced Calculus, classroom design is vital to student success. The key? Flexibility. With a creative approach focused on emerging education trends, any learning space can offer inclusive support and ignite imaginations of all ages and aptitudes. That starts with easily configurable and remarkably durable classroom furniture that makes ongoing success accessible for everyone.

Listen.
Learn.
Lead.

Preschool

The earliest learning environments should feel safe, welcoming, and ready for discovery. Scaled-down furniture, rounded edges, and flexible layouts create spaces where little learners can explore, play, and grow—building confidence one moment at a time.

Goal:

Encourage Imagination, Comfort & Safety

Choose:

BRIGHT PRIMARIES

Red, yellow, and blue used in moderation

SOFT PASTELS

Help to avoid overstimulation

If you like these colors,
CLICK to see 'Hue Needs the Glue' palette and more! 

CLICK for more HON Resources on page 84 ►

Elementary

Kids thrive in classrooms that encourage movement, and that energy is supported by flexible furniture. Adaptable layouts promote collaboration and connection, keeping active minds and bodies engaged throughout the day.

Goal:

Support Concentration & Reduce Distraction

Choose:

GREENS AND LIGHT BLUES

Support calm and comprehension

SOFT YELLOWS

Enhance optimism and motivation

If you like these colors,

CLICK for more HON Resources on page 84 ►

Middle School

Flexibility is an upgrade desired by most teachers and it's easy to see why. Middle school classrooms need to keep up with constant shifts between group work and independent focus—and their furniture should quickly and seamlessly support both.

**A New Look
in 2026!**

**Build for today's
classrooms
with a future-ready
foundation.**

Our current Build desk leg options remain available while we prepare to launch our next-generation leg design.

Goal:

Nurture Emotional Growth & Encourage Socialization

Choose:

BLUES, TEALS, YELLOWS & MUTED PURPLES

Support creativity, collaboration, and confident transitions from elementary to middle school

VIEW TYPICAL

STEAM

Hands-on Learning

STEAM—Science, Technology, Engineering, the Arts, and Math—blends creativity with critical thinking to help students connect ideas and solve real-world problems. In the heart of STEAM spaces, learning comes alive through hands-on projects that spark curiosity, inspire problem-solving, and encourage collaboration. They're active, messy, and full of discovery—because working together isn't just good for today, it's a skill students will carry for life.

**Construct.
Collaborate.
Create.**

Makerspace

Makerspaces are all about hands-on discovery—places where students explore ideas, experiment with tools, and bring their creativity to life. These projects aren't quiet or still—they're active, messy, and full of problem-solving. That's why Makerspaces need to work just as hard as students do.

Goal:

Boost Creativity & Confidence

Choose:

BLUES AND ORANGES

Fuel hands-on learning and spark creativity in active environments

Career & Technical Education

Career and Technical Education (CTE) builds real-world skills through hands-on learning and applied practice. From culinary arts and cybersecurity to agriculture and hospitality, these spaces require durable materials, smart storage, and layouts that adapt to task-based instruction. When students have the right tools, confidence and career readiness follow.

VIEW TYPICAL

Social

Learning doesn't just happen at a desk—it happens in every corner of the school. Social spaces give students room to connect, share ideas, and recharge between moments of focus. By designing areas that invite conversation, encourage discovery, and spark collaboration, we help turn everyday interactions into opportunities for growth.

Engage.
Exchange.
Encourage.

Library & Media Center

Media centers are the heartbeat of the school and the community—a place where curiosity meets connection. They inspire creativity, spark discovery, and welcome people of all ages and backgrounds. Cozy reading nooks, collaborative zones, and adaptable furniture solutions help every visitor find their place—bridging the gap between people, ideas, and the wider world.

Teacher's Lounge

Teachers deserve a dedicated space to relax, recharge, collaborate with peers, or simply connect with other adults. Lounges should be inviting, featuring couches, tables, and individual soft seating options—ensuring teachers can find a comfortable spot that suits their needs in the moment.

Creating a Purposeful School Culture

Promoting inclusivity through educational spaces requires intentional design, policies, and practices that foster belonging and equity. Create spaces that are designed to be flexible and adaptable with furniture that accommodates a variety of needs, ensures accessibility, and incorporates school culture elements to encourage a healthy environment.

Foster inclusive professional development in these spaces by hosting workshops and trainings, as well as creating collaborative staff lounges that encourage interaction and dialogue among educators.

Product Spotlight

Limitless potential is the hallmark of a great school. We believe in empowering the big thinkers and leaders of tomorrow, and it starts with furniture that makes your space the best it can be. With our comprehensive offering built for active and engaged learning—and crafted for quality and durability—there's nothing you and your students can't accomplish.

Student Chairs

SmartLink®

SmartLink seating progresses with learners as they grow, from kindergarten through high school!

PRODUCT FEATURES

- Keep books and supplies neatly tucked under with an added wire storage basket*
- Casters available for added mobility and ease of moving*
- Place cantilever chairs on top of the desk for easy cleaning, while rubber stoppers prevent scratches on the worksurface
- Chairs and stools stack 5-high allowing for more space
- Powder-coated legs are scratch-resistant for durability where it matters most
- SmartLink's shape—with its ergonomic curves—is designed to minimize pressure points so students can stay comfortable and focused longer

*Available on select heights.

Contoured back shape keeps bag from sliding off and includes a built-in handle for ease of moving.
