Interference Complaints		
IC-2006-001	W2DXA – 147.390 – station is experiencing co-channel interference by an uncoordinated repeater run by the Portuguese ARC on the same frequency within the 100 mile limit.	Since WNYSORC is not a regulatory body we have advised W2DXA to file a complaint with both the FCC and IC should the problem not be resolved amicably.
IC-2006-002	VE3WAS – 146.610 – station is being interfered with by an uncoordinated repeater on 146.620 operated by VE3TVG. 146.620 is not a standard repeater frequency.
